Use Eastlake Galvanized Steel Shingles on your Roof

They cost no more than best Cedars when laid on the roof.

There are many roofs throughout Canada which were covered with Eastlake Shingles between 1885 and 1890 and which look as well to-day as when the shingles were put on. From all appearances these roofs are good for another fifty years or more. This record is the best guarantee that you can get.

We are receiving a carload this week. Ask for prices. We also have two carloads of cedar and spruce shingles for sale.
