All dealers 50c. box.

## FORECLOSURE SALE!

1917 A. No. 2599  
IN THE SUPREME COURT  
Between  
SIBON BAKER Plaintiff  
and  
JOSEPH A. BALCOM Defendant  
appointed to defend, Defendant

To be sold at Public Auction by the sheriff of the county of Annapolis or his Deputy, at the Central House in Middleton, in the county of Annapolis, on Thursday, the 24th day of October, A. D., 1917, at the hour of eleven o'clock in the forenoon, pursuant to an order of foreclosure and sale made herein and dated the 18th day of September, A. D., 1917, unless before that time appointed for such sale the amount due the plaintiff for principal, interests and costs herein be paid to the plaintiff or his solicitor, or the said sheriff.

1. The estate, right, title, interest in property claim, demand and redemption of Mary L. Baker deceased, and of all persons claiming or entitled by, from, or under the said Mary L. Baker, of in, or out of all that certain lot or parcel of land and premises situated in East Margarettown in the county of Annapolis, bounded and described as follows, to-wit: Beginning at the south west corner of David Downie's land, the line running southerly along the east side of the Stronach Mountain Road, sixty-seven rods, thence easterly along Frank Goucher's line, one hundred and twenty rods or until it comes to the county line, sixty-seven rods, thence at right angles westward to the place of beginning, containing fifty acres more or less.

Terms of Sale: Ten per cent deposit at time of sale, the remainder on delivery of Deed.

J. H. EDWARDS  
High Sheriff of the county of Annapolis

W. G. PARSONS  
of Middleton, N. S.  
Plaintiff's solicitor.

Dated at Annapolis Royal, N. S., the 22nd day of September, A. D., 1917. 25-51

## At 50 years of age THE KIDNEYS NEED HELP

There is no reason why, when a man or woman reaches the fifty mark, he or she should not feel full of energy and vigor. It is the greater age must now be taken to drive away the lesser life, which, if neglected, may develop. Proper attention to the kidneys suggests

## GinPills FOR THE KIDNEYS

## Cough Balsam

Is good for Bronchitis, Lung Trouble, Croup, Hoarseness, etc. Made of purest ingredients. Prepared by

BURTON & CO.,  
Bridgetown, N. S.

## GOOD D. A. R. MANAGEMENT

The Efforts to Popularize Western Nova Scotia Are Highly Commendable

(Maritime Merchant)

There is a very considerable amount of good work for the western part of the province of Nova Scotia being done by the management of the D. A. R., at the present time which, if it doesn't bring immediate returns is certain to fructify in the future. We refer to the visits they have arranged for special writers and landscape artists during the present season. The stories these visitors will tell of Nova Scotia with pen and brush will make the province better known, which is what we all want it to be, and will no doubt result in increasing the tourist travel in the United States to the Blue-nosed province. We think Mr. Graham, the general manager, and R. U. Parker, the general passenger agent, are to be especially commended for enterprise at this particular time. Their activity is bringing first class people to exalt the fame of Nova Scotia during a period when actual travel is most meagre, goes to show that they believe that publicity is a thing which has long distance influences and that altho this summer and next summer will be barren of returns, there will come a time when returns will be forthcoming in substantial quantities.

Western Nova Scotia has great possibilities as a summer resort. We, who live in a land of cool summer know how great these prospects are. But if we lived in almost any one of the big American cities and had to experience such heat for days and days as they have during every summer season, we would understand why there is a demand for such a climate as that of western Nova Scotia and why the D. A. R. people have faith in its ability to attract a large patronage from summer visitors.

## Tribute Paid to Bridgetown Lady

In a recent issue of the "Bangor Daily Commercial," we find a report of the opening services of an Episcopal church, recently completed in the town of Macwahoe, Maine, which were conducted by Bishop Brewster of Maine, assisted by clergy from adjacent parishes. In the report we note the following:

"A tribute was paid to the memory of Mrs. M. Johnson, who for years conducted a Sunday School in Macwahoe, and kept up an interest in church work, single handed, until it was culminated in the building of the pretty church, and the faithful ministrations of a priest." Upon the completion of the building a bell was presented by residents, irrespective of creed, in grateful memory of Mrs. Johnson.

The Mrs. Johnson referred to in the above, was a native of this town, daughter of Mr. and Mrs. John McCormick (deceased); a lady, whose many lovable qualities endeared her to all who had the pleasure of knowing her and it will be gratifying to her many friends to know that she is held in loving remembrance in the town where she resided for years.

## The Boston Comedy Company.

A long and interesting account of the first appearances in Nova Scotia of the Price Webber and Edwin Gray, is contributed to the Pictou Advocate by W. R. Geldert, now of Windsor. It appears that Webber, although an Englishman, started his stage career in St. John with an amateur company known as Scribner Brothers, which extended its tours to Pictou. Edwin Gray (Mrs. Webber) is a native of Maine and they have starred it together for nearly fifty years.

## Entertained Four Generations.

On Saturday, 13th inst., Mr. and Mrs. George W. Armstrong, of Middleton, entertained a family party of four generations. The most important of these was the mother, Mrs. Mary Eliza Armstrong, of Round Hill, who is past 93 years of age; the youngest of the party was the great-granddaughter, little Lois Charnock of Brantree, Mass.

## Power of a River.

There are more spindles turned in the mills of Lawrence by the power of the Merrimack river than are turned by any other river in any other city in the world. Four hundred acres of mills, employing 40,000 hands, put out 2,000,000 lbs. of woven fabrics each year.

More tobacco is smoked per head in the United States than in any other country, except Holland.

## AN IMPORTANT SUBJECT

## Suggestions for the Exhibition Prize Lists.

(By Inspector Foster.)

How can we have better exhibitions next year. In some ways they can certainly be improved. Too much work is left undone until the end of year and then we have only half a dozen entries in the Essays, where we should have twenty times that number. The exhibits in drawing and writing in like manner do not show the work done in school, if so, then certainly it is time these subjects were taught. I am suggesting, below, some changes in the prize list for these subjects.

Although it is necessary to make rules, in regard to the time of doing the work, yet these rules should not be hard and fast. A pupil might not enter school until late in the year, or might be sick for some time. If the exhibits are only from one school, the principal should have the privilege of adjusting such irregularities. In case where the exhibits come from a number of schools, it should be left to some impartial authority as the inspector.

No matter whether the below suggestions are adopted or not adopted, or whether you do, or do not have an exhibition, I will call for such work on my official visits. Score all such work in the school room and be prepared to show it.

## WRITING

Three samples to be exhibited. First sample to be made before end of first half year, second before May 1st, third after June 1st. In grade I and II writing to be in lead pencil and each sample to contain not less than twenty words. Grades III to VI, to consist of not less than five lines of poetry. In grades VII and VIII, one sample a bank note, one a stock certificate, one a business letter. No writing allowed between ruled lines. Three prizes for each grade.

## ESSAYS

Three essays from the below subjects to be submitted, one to be written before the end of first half year, one before May 1st, and one after June 1st. Essays to be not less than 500 words, and more than 800 words. Subjects: Canada's Part in the War, Our Peace Treaty, How War is Waged, The Importance of School Gardens, How to Make Poultry Pay, Our Apple Industry, Our Potato Industry, Our Fishing Industry, A Kitchen Garden, The European Situation, The Outstanding Event (or Question) in the Public Mind Today, Injurious Insects, Our Forests An Original Story.

Open to grades VIII, IX, X, and XI. Three prizes for each of the other two grades. All essays are to be in the hands of the judges one week before the exhibition day.

## DRAWING

Four samples to be exhibited: First to be done before Feb. 1st, second before April 1st, third before June 1st, fourth after June 1st. Best crayola work, grade I and II, three prizes; III and IV, three prizes.

Best drawings as directed by Augustus Drawing Manual Book I, grade I, II, III and IV (each grade), three prizes.

Best drawings as directed by Augustus Drawing Manual Book II, grades V, VI, VII and VIII. Grade VIII also to submit two mechanical drawings done before June 1st. Each, grade, three prizes.

Map drawing, grade V, school grounds, county, showing forest and farm products. Industrial map of Nova Scotia, Commercial Map of Maritime Provinces, three prizes.

Grade VI, Commercial and Industrial Map of Maritime Provinces, Resource map of Canada, Surface map of North America, Trade Map of St. Lawrence and Great Lakes, three prizes.

Grade VII, the last three maps in grade VI; also war map of Europe and Western Asia, Dec. 1st, 1917, three prizes.

Grade VIII, Map of World (Mercator's Projection) showing British possession at date drawn and trade routes. Resource map of Africa, Commercial and Industrial map of North America, War or Proposed Peace Map of Europe and Western Asia, March 1st, 1918, three prizes.

Grade IX, Commercial and Industrial Map of North America, Resource map of Africa, Resource and Trade Map of Canada, War or Proposed Peace map of Europe, June 1st, 1918, three prizes. All maps to be traced in ink and frame of map not to be larger than 12x15 inches.

## Long Train

The longest train that ever travelled over the D. A. R. left Truro on Sunday morning for Kentville and intermediate stations, with 47 freight cars, drawn by two of the new engines, Nos. 36 and 37. Six of the cars were loaded and the rest were empty.

## Some Funny Sights

I saw a cowhide in the grass.  
A rush-light on the floor;  
I saw a candle-stick in the mud,  
A bell-pull at the door.

I saw a horse-fly up a creek,  
A cat-nip at her food,  
I saw a chestnut-burr, and heard  
A shell-bark in the wood.

I saw a jack-plane off a board,  
A car-spring off a track;  
I saw a saw-dust off the floor,  
And then a carpet-tack.

I saw a monkey-wrench a hat  
From a fair lady's pate;  
I saw a rattle-snake a bird,  
And hogs-head on a plate.

I saw a brandy-smash a glass,  
I saw a shooting star;  
I've heard the corn-stalk in the field,  
And pig iron crow-bar.

## "DRESS UP" SCARECROWS

Long Island Women Farmers Improve On the Old Kind

[Buffalo, N. Y. Express]

One of the many improvements resulting from permitting women to run the farm instead of to waste out their lives cooking for the thrasher crew, is said to be the substitution, on Long Island sound at least, of tailor's models for scarecrows. It is not likely that crows can distinguish a well-dressed man from an ill-kept one, but no matter how the dear girls slump around when they are by themselves, they do like a man who dresses up well. Besides, the models undoubtedly improve the appearance of the place more than the scarecrows do. For one thing, a man with good clothes is out of place idling until the evening chores are done.

Several places in Pennsylvania report that a new pest has thought to menace the potato crop by tackling the plants on the under side of the leaves, but his pest chose a sorry time for attack, for with women's house-cleaning instinct extended now to the potato patch, both sides of every leaf are being watched and corners cleaned as never before. This treatment has removed from many a patch the threatened destruction, so that a bumper yield is promised from those gardens whose product depends solely on housecleaning methods.

## Was it the Cow's Fault.

Supposing that you keep a cow giving five thousand pounds of milk in a year, for which you receive seventy dollars, cash, how much profit does that cow make? This is not a riddle, but simply a query that every dairyman should be in a position to answer. Leaving aside the "higher accounting," side of revenue and expenses per cow—those persistent items of rent, interest, taxes, depreciation, etc., and taking only income from milk or fat, and cost of feed, are you then in a position to say definitely that each cow you keep does make a good clear profit above feed cost?

Whether the feed is valued at forty or eighty dollars, whether the income is fifty or one hundred and twenty dollars, is there such profit that a fair return is made to you for the labour expended? For if revenue and expense just balance showing no margin of profit at all, there must surely be something wrong, your labor has to be paid for.

Milk and feed record forms may be had free on application to the Dairy Commissioner, Ottawa, so that the profit made by each cow may be ascertained. Perhaps some cows would show profit if fed better, some won't. Many men in all provinces on the cow testing register at Ottawa show thirty and sixty dollars clear profit per cow above feed cost. You may have made more than that, if you made less, was it entirely the cow's fault?

## Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

## Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old."

— Mrs. O. M. RHINES, Ridgway, Penn.

## Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga. — "I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited."

— Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga.

## If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass.

Your letter will be opened, read and answered by a woman and held in strict confidence.
