THE CELEBRATED
STANLEY
 PIANOS

THESE wonderful instruments so superior for their tone quality, easy and elastic touch, have won in past years and are adding to their lustre, yearly, a name second to none in the musical world. It is easy for a maker to laud his instruments to the skies, but after all it is for the buyer to deny or affirm. We challenge experts to find a flaw in the perfected "STANLEY." By writing to us we will cheerfully mail Catalogue, Data, Testimonials, etc., showing the high esteem in which this Piano is held by the musician, the purchaser and the artist.
