IMPORTANT TO FARMERS!

GIVE YOUR SONS A PRACTICAL EDUCATION.

THE importance of a thorough practical education is pressing itself on the attention of agricultural circles more and more every day, and its advantages are, perhaps, emphatically shown by nothing more than the vantage ground on which it places the FULLY TRAINED young man above the IMPERFECTLY TRAINED one when looking forward to become a councillor, reeve, township clerk, or warden, &c.

Nothing can be of greater importance to the farmer than a thorough knowledge of Drafts, Bills of Exchange, Promissory Notes &c. In Arithmetic he should be able to solve, with rapidity and ease, all questions relating to business transactions, such as Percentage, Interest, Discount, Exchange, the Levying of Taxes, &c., which, when accompanied with a good handwriting, is a sure passport to some honourable work in his own Township, which he can pursue in connection with his agricultural labours.

The British American Commercial College

has in full operation such a course of instruction as to give it practical fitness to do work proposed.

An important characteristic of this institution is its maturely organized ACTIVE BUSINESS SYSTEM, whereby the College is made a typical model, not only of an extensive business house, but even of a large trading community.

THE FARMER'S ADVOCATE.

EDITED in London, Ontario, D.C. by William Weld, a practical Farmer. TERMS—\$1 per annum, in Clubs of four or more, 75 cts each, post free.

The following resolutions were passed unanimously by the County Council of Middlesex, on 1 Oct. 14th, 1867:—

We earnestly recommend the usefulness of the Agricultural Emporium established by Mr. Wm. Weld, of London, for the dissemination of superior stock, seeds and implements among the farmers of the Dominion, more especially at this time, when from the ravages of the midge and other causes, our wheat crops are diminishing yearly. The exertions of Mr. Weld to procure new kinds of seed are praiseworthy. We also recommend his paper, the "FARMER'S ADVOCATE," to the support of all persons interested in the success of Agriculture.

And your committee would also recommend Mr. Weld to the favourable consideration of the Legislature of Ontario, praying that honours may be bestowed on the name of Mr. Weld to encouragement in the efforts he is making for the advancement of our Agricultural interests. Send for a copy. v5-1-11
