

## OUR BOOK SHELF.

Sir J. William Dawson, C.M.G., LL.D., F.R.S., Principal of McGill College, one of the most celebrated geologists in the world, has added another book to the already long list of his published works. This is "Egypt and Syria: their Physical Features in relation to Bible History." This little work aims at bringing the reader, in imagination, to the tents of Israel in the Land of Goshen, in Egypt, and thence across the Red Sea to the Land of Palestine. The whole route is so accurately and vividly described by the great geologist, who has travelled over it within the last two years, and is so copiously illustrated at every step by woodcuts, such as "Map illustrating the Exodus," "Bird's-eye view illustrating the crossing of the Red Sea," &c, &c., that one almost feels as though he saw the whole country. No work so beautifully depicts the Exodus. Its assistance to the Bible student cannot be over estimated. Every lover of clear views regarding Bible events will avail himself of this opportunity of travelling the banks of the Nile, crossing the Jordan, and visiting Judea and Jerusalem with one of the greatest of living Scientists and of Bible students.

The book contains 192 pages, embracing a good index. Price 90 cents. Address Dawson Brothers, 1336 St Catherine St., Montreal.

## OUR LOCAL NOTE-BOOK.

Notwithstanding the fear which has been instilled into the minds of the outside world by newspaper reports, nearly all our old students have returned, bringing a large addition to their number. The buildings are full, and quite a number have their lodgings in the city. For the benefit of the public in general, health committees, and our friends particularly, we give the regulations the Faculty has drawn up to guard against the introduction of smallpox:—

1. All persons admitted to the College shall satisfy the Dean of Residence that they are free from contagion, and that they have been vaccinated within the past seven years, or that vaccination will be attended to at once.

2. During residence in the College, they shall carefully avoid receiving *visitors* and *articles* from *infected* places, or *visiting* such places.

3. No person shall be allowed to occupy a student's apartment, or any other room in the College, over night, without leave being first obtained from the Dean of Residence.

4. The "Montreal Steam Laundry Company," 23 St. Antoine Street, is authorized to do washing for the College, which is not to be done elsewhere without permission.

5. Any violation of these Regulations, and such others as the College authorities may prescribe from time to time, will subject the offender to immediate dismissal from the premises.
