

Why not try WYETH'S MALT EXTRACT?

Doctors highly recommend it to those
Who are run down;
Who have lost appetite;
Who have difficulty after eating;
Who suffer from nervous exhaustion;
And to Nursing Mothers,
as it increases quantity and
improves quality of milk.

REV. ALEX. GILRAY,
College Street Presbyterian Church, writes:
Dear Sirs,—

It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acetocura remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many,—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

The true Christmas season is said by many authorities to commence with Christmas Eve and terminate on the first of February. The commonly accepted length of festival time is from Christmas Eve until Twelfth Night.

The Best Advertisements.

Many thousands of unsolicited letters have reached the manufacturers of Scott's Emulsion from those cured through its use, of Consumption and Scrofulous diseases! None can speak so confidently of its merits as those who have tested it.

The strongest animals in the world are those that live on a vegetable diet. The lion is ferocious rather than strong. The bull, horse, reindeer, elephant and antelope, all conspicuous for strength, choose a vegetable diet.—*Scientific American.*

Colonel Henry Lee is the author of the mot, "It is but three generations in this country from shirt-sleeves to shirt-sleeves,"—the happy coinage of a conversation with Edward Atkinson as they were walking home from church in Brookline.

Recently at the London Institution, Professor Sir R. S. Ball stated that the heat given off from one square yard of the sun's surface would keep a series of Atlantic line boilers at work developing from 20,000 to 30,000 horse-power continually.

Mme. Carnot, the wife of the President of the French Republic, is brilliantly educated, speaks English fluently, and keeps herself well informed upon such European politics as are likely to have any influence upon the destinies of France. Mme. Carnot, like most French women of the upper class, dresses, with exquisite taste,

It is reported that fifteen children of both sexes were baptized in the Maison du Peuple, wine being used instead of water, and the usual advice to parents supplanted by an atheistic address by a member of the Chamber. Augusto Comte adopted several imitations of the Christian religion for his cult of humanity, but a purely civil baptism is about the newest thing out.

A GRAND FEATURE

Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now.

Hood's Pills are purely vegetable, perfectly harmless, always reliable and beneficial.

A congress of archaeologists at Rome is proposed for 1895, to be held at the time the International Fine Art Exhibition shall be open. Special excavations, laying bare the rest of the Palace of the Caesars, are suggested as an attractive function.

Novel uses said to have been found for aluminum are for a folding pocket scale, one meter long; a necktie made of metal, frosted or otherwise ornamented, in various shapes imitating the ordinary silk or satin article, which is recommended for summer wear, and military helmets.

Within three years the price of platinum at the Ural mines has increased five-fold. This is due to the heavy demand for this metal for electrical purposes. It is now nearly as dear as gold, with a reasonable prospect that it will soon reach a price that will encourage its production on the Pacific Coast.

SHE DIDN'T TAKE WITH THE GENTLE-
MEN.

She was refined, intelligent, and not bad looking, but somehow she never seemed to take with the gentlemen. They didn't like her listless ways; they said she hadn't any "snap" about her. Poor girl! she was suffering from functional irregularities, and it was actually impossible for her to take much interest in anything. But a change came. One day she heard of Dr. Pierce's Favorite Prescription. She procured a bottle, and she had not taken half its contents when she felt like another woman. Now she is in the enjoyment of perfect health and has suitors by the score. No woman need suffer from functional irregularities and weaknesses. The "Favorite Prescription" is a safe and certain cure for all the weaknesses to which women are peculiarly subject.

Dr. Pierce's Pellets cure constipation, biliousness, indigestion and headache. One a dose.

Maj. John W. Powell, of Illinois, director of the United States Geological Survey for the last sixteen years, has voluntarily resigned on account of ill health, and his resignation has been accepted, to take effect on July 1. Prof. Charles D. Walcott, of Utica, N. Y., the present chief geologist of the Survey, has been appointed his successor.

The Baluban tribe of Central Africa are famous for their skill in casting and forging iron. They construct tall cylindrical furnaces of clay with tuyeres of clay and an ingeniously devised wooden bellows. They make arms for hunting and for war, and collars and bracelets of iron. The neighbouring natives resort to them in great numbers to exchange their own products for the manufactures of the Balubans.—*Popular Science Monthly.*
