

	SERIES.	VOL.	PAGE.
WILSON (SIR DANIEL).—Hybridity and Absorption of the Red Indian Race	II.	xiv.	432-66
Interglacial American Man	II.	xv.	557-73
Brain Weight and Size in Relation to Relative Capacity of Races	II.	xv.	177-230
An Ancient Haunt of the Cervus Megaceros or Great Irish Deer	III.	i.	207-24

GEOGRAPHY (See also Archaeology, Classical Philology, Geology and History.)

BROCK (HENRY).—The Upper Niagara River.	III.	ii.	222-28
FLEMING (SANDFORD, C.E.).—On the Valley of the Nottawasaga. (III.)	I.	i.	223-26
GILBERT (G. R.).—Old Shore Lines in the Ontario Basin	III.	vi.	2-5
GOODBY (DR.) and BOVELL (JAS., M.D.).—Passing Visits to Rice Lake, Humber River, Grenadier's Pond and the Island. (<i>Natural History Specimens</i>)	I.	iii.	201
GORGENYI (ARTHUR).—Corea. (<i>Tit.</i>)	III.	v.	105
KANE (PAUL).—Incidents of Travel on the North West Coast, Vancouver's Island, Oregon, etc.	I.	iii.	273
PAYNE (F. F.).—Mammals and Birds of Prince of Wales Sound	III.	v.	111-23
SCADDING (REV. H., D.D.).—Memoranda of Vesuvius and its Neighbourhood	I.	ii.	237, 261
STRATFORD (G. S. T.).—Description of Louisburg, Cape Breton. (III.)	I.	i.	126-28
STUPART (CAPT.).—The Flying Proas of the Ladrone Islands. (III.)	III.	vii.	43, 204-5
WILSON (SIR. DAN.).—The Southern Shores of Lake Superior.	II.	i.	344-56

GEOLOGY (Including Mineralogy).

BARNETT (J. D.).—Mechanical Value and Treatment of Hard and Soft Coal	III.	iv.	82-92
BELL (ROBT.).—On the occurrence of Petroleum in the N.-W. Territories.	III.	i.	225-30
Geology of the Route of the Intercolonial Railway	II.	xv.	381-87
On the mode of occurrence of Apatite in Canada	III.	iii.	294-302
Marble Island, Hudson Bay. (III.)	III.	iv.	192-204
BILLINGS (ELKANAH).—Some New Genera and Species of Cystidea from the Trenton Limestone	I.	ii.	215-8, 251-3, 268-74
On the Fossil Corals of the Devonian rocks of Canada West. (III.)	II.	iv.	97-140, v. 249-82; vi. 128-48, 253-74, 329-63
Note on a New Genus of Palaeozoic Brachiopoda	II.	vi.	148
BRYCE (P. H.).—Natural History of Ground Waters	IV.	i.	149-69
CHAPMAN (EDWARD J.).—A Review of the Trilobites. (III.)	II.	i.	271-86
New Trilobites from Canadian Rocks. (III.)	II.	iii.	230-38
New species of Asaphus	II.	iv.	1-4
Asaphus Megistos, etc. (III.)	II.	iv.	140-2
New species of Agelacrinites	II.	v.	358-65
Atomic Constitution and Crystalline form as Classification Characters in Mineralogy	II.	ii.	435-9
An outline of the Geology of Ontario	II.	xiv.	580-88
On the Leading Geological Areas of Canada	II.	xv.	13-22, 92-121
A popular exposition of the Minerals and Geology of Canada. (III.)	II.	v.	1-10, 168-82, 517-31; vi. 149-65, 425-55, 500-18; vii. 108-21; viii. 17-33, 111-27, 185-216, 437-62; ix. 1-10.
