A Record of Absorbing Interest Revealing Facts
of Far Reaching Influence

INDUCED CYTOGENY AND CANCER

By HUGH CAMPBELL ROSS, M.R.C.S. (Eng.) L.R.C.P.
(Lon.) *Director of Special Researches at the Royal
Southern Hospital, Liverpool.*

Being the Results of Researches Carried Out by the
Author in Part Collaboration With

Charles John McAulister, M.D. (Edin.), F.R.C.P. (Lon.)
*Consulting Physician to the Liverpool Home for Incur-
ables; Lecturer on Clinical Medicine, University of
Liverpool, and with the assistance of John Westray Crompton
M.R.C.S. (Eng.) L.R.C.P. (Lon.), Assistant to the Research
Department of the Royal Southern Hospital, Liverpool.*

128 Original Illustrations, 470 pages. Octavo.

Cloth \$4.50 net. Post Paid

The book opens up an entirely new vista to the seeker in
medicine and offers therapeutic aid in the treatment of can-
cer. The methods of investigation used are entirely new
and have revealed many interesting facts of far reaching
importance in their influence upon the advancement of
pathology and the control of malignant disease.
