

THE BEST AND CHEAPEST LIBRARY IN THE WORLD

TO-DAY

IS

The Humboldt Library of Science.

The only publication of its kind—the only one containing Popular Scientific Works at low prices. For the most part it contains only works of acknowledged excellence, by authors of the first rank in the world of Science. Such works are landmarks destined to stand forever in the history of Mind. Here, in truth, is “strong meat for them that are of full age.”

In this series are well represented the writings of

DARWIN, HUXLEY, SPENCER, TYNDALL, PROCTOR, CLIF-
FORD, CLODD, BAGHOT, BAIN, BATES, WALLACE,
TRENCH, ROMANES, GRANT ALLEN, BALFOUR
STEWART, GEIKIE, HINTON, SULLY, FLAM-
MARION, PICTON, WILLIAMS, WILSON,

and other leaders of thought in our time

Science has, in our time, invaded every domain of thought and research, throwing new light upon the problems of

Philosophy, Theology, Man's History,

Government, Society, Medicine.

In short, producing a revolution in the intellectual and moral world

Read what the great Canadian says of it :

“THE HUMBOLDT LIBRARY is a splendid compilation of most valuable material. It is hard to conceive of anything so valuable being had for the same amount of money, containing the best thoughts of the best men of the time, and put in such readable and accessible shape.”

ERASTUS WIMAN,

And this extract from the “Publishers' Circular,” London (Eng-land), May 1, 1889.

“The Humboldt Publishing Co., of New York, seems to be what is called across the Atlantic a ‘live’ concern. Its aim is high, for apparently despising the broad realm of fiction, it proposes to provide the public with THE GREAT CLASSIC OF MODERN SCIENCE, STROSS MEAT FOR THEM THAT ARE OF FULL AGE, and all this for a beggarly fifteen cents a volume! In other words, the works of such men as Darwin, Tyndall, Huxley, R. A. Proctor, Herbert Spencer, Baghot, Bain, W. L. Clifford, Charles Kingsley, Sir John Lubbock, and many other celebrated English authors are placed before the public at sevenpence half-penny a volume. They are supplying the British Isles and colonies with these REMARKABLY CHEAP productions.”

RECENT ISSUES.
