**MIRIMACHI STONE**  
FRENCH FORT QUARRY

**JOHN LAURIE, Sole Agent,** 162 St. James St., MONTREAL  
*Used in some of the finest buildings in Canada. Stands the climate;  
improves with age; does not absorb moisture.*  
CHIEF ARCHITECT'S OFFICE, OTTAWA, August 21st, 1890.

**FRENCH FORT SAND-STONE.**

DEAR SIR—The new Departmental Building in this city has been built of this stone—upward  
of 12,000 cubic feet having been used.  
Having inspected the quarries, I am able to state that it is almost unlimited in extent, and blocks  
of almost any size can readily be obtained; it is of a most pleasing colour, which seems to improve  
with age, very easily wrought, and in that respect alone has the advantage of most of the sand-stone  
at present in use. The stone was wrought and placed in this building quite green from the quarry  
and notwithstanding that the variations in temperature during the past severe winters have been  
20° to 100° in twenty-four hours, it has not been in any way injured.  
I am, Dear Sir, yours truly,  
G. S. FLETCHER, Esq.,  
Newcastle, N. J.  
**THOS. FULLER,** Chief Architect.
