## DEATH OF ISRAELI CITIZENS

The Secretary of State for External Affairs, The Right Honourable Joe Clark, today released the following statement.

The Government of Canada deplores the recent killing of Israeli citizens, including seven in the Sinai, one of whom also held Canadian citizenship. I wish to extend my sincere condolences to the families of the victims.

These further tragic events underline once more the importance of working earnestly and in good faith for real negotiations to achieve a political solution to the conflict in the Middle East.
