

HOTCHKISS SCHOOL
LAKEVILLE, CONNECTICUT

beginning next September. This school made me a very generous offer, but I believe there is more work and wider interests for me in Montreal - where at least there is a respectable library - and I accepted Mr. Fookery's terms.

I hope when I come to live in Montreal, I shall have the opportunity and privilege of having further conversation with you on educational matters, because as you know that field is the one I have the deepest interest in and I naturally want to inform myself as fully as possible on it.

I am sorry I could not call at 'Rokeby' last week, but my time was sadly short and I had to do some pretty quick work arranging things, as it was. Please give Lady Currie my kindest regards and accept the same for yourself; hoping Margie & Anne are flourishing

Very ^{warm} sincerely
Terence W. MacDonagh
