

**VALUES QUITE FIRM  
ON CATTLE MARKET**

Offerings All Cleared Up Before Noon at Monday's Advance.

**HOGS ALSO STRONGER**

General Receipts of Live Stock at Union Yards Light.

Receipts of live stock at the Union Stock Yards on Tuesday were 48 cars, comprising 1,000 head of cattle, 300 sheep and lambs and 250 hogs. Receipts were light in all the different classes, the result being that all or nearly all of the offerings were cleaned up before the noon hour. Prices were steady to firm in all the different classes of fat cattle at Monday's advance. In all other classes of live stock prices were steady, except hogs, which were firmer.

**ANOTHER DIP OCCURS  
IN PRICE OF C. P. R.**

Cut in Dividend Revived to Account for Break in Price to Below Hundred and Fifty.

Another decline in C.P.R. was the feature of the Toronto Stock Market yesterday, but small transactions on the local market kept the bottom to 150 1/2. Talk of a cut in dividend is again being indulged in and the rumour is thought to convey some truth. The market, while a little more active, had no snap and most of the trades were for broken lots. Brazilian is still held on this exchange at 52, while sales are being made on the Standard Exchange at 50.

In the unlisted department there was less activity with the mining issues easier.

**JUPITER A DISTURBER  
TO THE MINING MARKET**

Talk of Foreclosure by Bondholders Breaks Stock Price About Three Points.

A break in Jupiter disturbed the equilibrium of the mining exchange yesterday, although the price only reverted back to the figure it stood at a few days ago. The selling, if genuine, was started on the rumour that the bonds against the property were overdue and that action was to be taken to collect this prior obligation. The bonds for selling were none too substantial and many are of the opinion that the bondholders' action if taken would lead to an early refunding of the company and the reopening of the mine. The shares sold down to about 8 before a halt was called and it is not figured that much stock was lost in the drive.

The Jupiter dip had no serious effect upon the rest of the market, and when the selling was better understood prices generally stiffened. Big Dome had a natural reaction, but changes elsewhere were not of any moment. Yesterday's buying was well scattered and evidenced some breaking of outside interest.

**NEW VEIN STRUCK ON PETERSON LAKE**

Found at 160-Foot Level and Has Been Drifted for Fifty Feet.

COBALT, June 22.—The Peterson Lake Company is driving on a small vein found at 160-foot level near the O'Brien pump house. It has been drifted on now for about 50 feet, but during the past 10 days it has become much more promising. It is two or three inches wide of smaltite. There is very little native, but since the beginning of the work the vein has been running as high as 500 yards from the lake. It is entirely in Keswick below the contact with the conglomerate.

This work is entirely on what was once the Little Nipissing lease, but which reverts to the Peterson Lake company. The old workings of the Little Nipissing are joined up with those of the Peterson Lake from the old Keswick shaft by long crosscut. It was in this crosscut down the lake that the vein was cut.
