RUSSIANS WIN IMPORTANT VICTORY IN GALICIA

Cossacks Burst Thru Lines -Hindenburg Repulsed Ten Miles.

DETROGRAD, Oct 13.—Another striking victory has been won by the Russians on the southern front in eastern Galicia.

They have pierced the last line of Austrian defences on the Shripa River, and stormed one of the strongest points on the Austro-German right

The achievement of the Russian following their successes reported yesterday on the Dvinsk front, represented a continuation of the recent strong offensive movement north of the Roumanian frontier. The position which they stormed was on a hill to the east of the Village of Giavoranka, on the right bank of the Stripa, 13 miles north of Buchach.

This fortification was constructed scientifically and was of great strength. From this base the Austrians had prepared to strike at the Russian left flank, extending twoard Pinsk. The Russian success around Kolko and Chaistorisk, however, enabled them to obtain a footing on the left bank of the Styr, which seriously menaced their opponents. Kept Foe from Trenches.

Having thus completely secured the Revno district and the road leading into Volhynia and the marsh region, the Russians occupied strong positions along the Riwers Olychka, Styr and Ikwa. They prevented the Austrians and Germans from entrenching, as they seemed disposed to do, and warded off

Driven Back Ten Miles. Simultaneously with this movement the Russians are developing their operations around Dvinsk. Some time ago the Germans were within artillery range of the city, but they have now been driven back a distance of nine or ten miles on the northwestern and southwestern fronts. At Lautzeshei, northwest of Novo Alexandrovsk, Russian artillery dispersed the Germans. North of the immediate Dvinsk district the Russians drove back the Ger mans a distance of three miles. Efforts of the invaders to reach Dvinsk along the highway from Novo Alexandrovsk have cost them enorm ous losses and caused them to turn to the roads leading in from the northwest, where there are open spaces three miles or so in width between the lakes forming the gateway in the direction of the city. Foreseeing a serious menace at this point in case the Russians reach their rear, the Germans concentrated strong forces and heavy artillery in that region. Nevertheless, the Russians regard the concentration as largely precautionary and expect the chief attack will continue from the direction of Novo Alex-Comparative quiet prevails along

ONDON, Oct. 13.—(10 p.m.)—The near east, with the Austro-German and Bulgarian invasions of Serbia, the Anglo-French landing at Saloniki, the promise of active intervention of Russia, and diplomatic possibilities in Greece and Roumania, continues to be the centre of interest thruout

sian accomplishments in eastern Galicia, inasmuch as large Austro-German forces had been concentrated on the Galicia front, apparently to impress Roumania.

The Serbians, altho greatly outnumbered by armies with superior equipment, are making a stubborn defence of their country, and while the Austro-German progress is steady, it is very slow, and probably will become slower still when the mountains, where the Serbians are strongly entrenched, are reached.

"On the Danube front fighting occurred south of Gradiste and southwest of Semendria. Semendria was evacuated in the direction of the Village of Lipa. Near Semendria a fierce engagement was fought. The enemy succeeded in occupying Lipa, but at heavy cost.

"There has been no action since as the enemy had such heavy losses; the battlefield is covered with bodies. The enemy also attacked near Beigrade at Veliks, Mokri, Loug and Tourlak.

"On the Save and Drina fronts there is nothing of importance to report."

The official statement referring to previous actions, says:
"On the 9th in the fighting north
of Pojarechez (Pozarevac), one of
our battalions reached an enemy batis as follows:

tery, but was unable to bring the captured battery back to our lines. Our troops dismounted the guns and brought back all the machine guns except two; the men carrying the latter were killed on the way.

"On the 10th the enemy opened a violent bombardment on our positions at Zabrezge. He used asphyxlating shells, which, however, caused no disorder in our ranks. Our soldiers immediately donned masks, and a detachment charged the enemy thru the cloud of gas. Taken by surprise, the enemy retreated, some of the troops even crossing the Save. Three hours later the enemy renewed the attack, preceding it by a further bombardment of gas shells, but when the enemy troops charged, our men not only repulsed them, but captured an officer and thirty soldiers."

The Germans succeeded in penetrating some of the trenches, which had been badly shattered by the shells, but, according to the French official statement issued tonight, were repulsed everywhere else with heavy losses.

The text of the communication fol lows: "The enemy renewed today with strong forces his attacks to the northeast of Souchez against the wood 'Le Bois en Hache' to the east of the road from Souchez to Angres, against our positions on the approaches to the five highways on the crest of Vimy, against the small fort previously taken by us in the Givenchy wood, and the neighboring trenches.

"Despite the extreme violence of the bombardment which preceded these attacks, despite the desperate nature of the renewed assaults, the enemy was able to penetrate only some parts of the trenches in the Givenchy wood, which had been completely shattered by shells of heavy calibre. Everywhere else we conserved all our positions and repulsed the assaults of the Germans, who suffered very heavy losses.

"Artillery actions of particular intensity are reported to the south of the Somme, in the sector of Lihons, in Champagne, to the north of Souain and Massiges; in Argonne, to the north of La Harazee, and between the Meuse and the Moselle, to the north of Filirey.

For many weeks the provincial government and the Ontario License Commission have had under consideration ways and means of reducing to a minimum drinking among soldiers during the winter, and last night the final decision of the commission, endorsed by the Ontario Cabinet, was made known.
