

A Fine Store.

Geo. Craig & Co., dry goods, Winnipeg, are now located in their brand-new store on Main street, adjoining the 'oulds' block, and had a grand re-opening on Tuesday of last week. The new store has a frontage of forty-one feet, and has two entrances from Main street. This gives an excellent opportunity for window display. The depth of the store is 75 feet, and both flats and basement, full size of building, are occupied by the firm. The store is admirably lighted, having windows on one side and in the rear, in addition to the front. Customers therefore will have no reason to complain of lack of light to examine goods. The main floor has four counters, the centre being in the form of a horse shoe. This floor is filled with dry goods, and there is a gents' furnishing and boys' clothing department. The basement is used for heavy staples. One half of the upper flat is used for the carpet and house-furnishing department. The other portion of the second floor will be used for a millinery department, which will be added to the business next spring. A dressmaking department has now been added, and a line of toys and fancy holiday goods is being put in for the season's trade. A new feature will be the parcel room, where all purchases will be sent to be parcelled. A cash delivery system is also to be put in at once, and this system can also be utilized to carry purchases of goods to the parcel room. The new store has been adorned with a golden lion sign, the finest sign in the city, and which also indicates the name of the store.

McTavish, of Norway, is negotiating for the purchase of the grist mill at Pilot Mound, Manitoba, says the *Sentinel*, and it is expected that the establishment will be put in excellent working order and started immediately.
