importance of making a showing dur-

New subscriptions which are turned in

big extra credit offer, which means  
\$6,000 extra credits for every six six-  
months new subscriptions, or their  
equivalent in shorter or longer time

this time also count on the big extra  
cash prizes which are being offered

TO PUT MEXICO  
ON PAYING BASIS

Britain and France Renew  
Representations to United  
States.

Washington, July 10.—Renewed re-  
presentations on the part of the  
British and French governments to the American  
government by Great Britain and  
France, it was learned today at the  
state department, for several months  
these countries have been urging up-  
on the United States the desirability  
of putting Mexico on her feet so that  
she might resume the payment of her  
national and other debts and afford  
adequate protection to foreign lives  
and property.

British citizens are holders of a  
considerable amount of Mexican  
bonds, both national and railway,  
while the French have extensive in-  
vestments in the banks which it has  
been charged were looted by the gov-  
ernment under the guise of obtaining  
"loans." Nationals of both countries  
also hold extensive interests in oil  
properties.

It was said that many French citi-  
zens of means had invested their  
savings in Mexican bonds, on  
which they had received no interest  
for six years, and the French govern-  
ment was reported as particularly  
anxious that these investments be  
protected.

State department officials gave no  
indication that there had been any  
change of the American government's  
attitude toward Mexico. It was said  
that continued and increasing pres-  
sure was being brought to bear on the  
Carranza government for the protec-  
tion of American lives and interests  
there, and that Mexico also had been  
informed of the new representations  
made by Great Britain and France.
