## Our Walkeasy Boot Sewing Machines

If you're going to walk around much at the Fair Grounds get a pair of our Walkeasy Boots and see how comfortable they make your feet. In each pair there is a cork innersole, giving a sort of a "cushion" effect to the bottom of the foot. This proves a great help to those doing much walking or those troubled with tender feet.

Aside from this innersole feature, the material in the Walkeasy boot gives it great wearing qualities and purchasers get unequalled satisfaction for their money.

Our price for the Walkeasy Boot is **Two Dollars (\$2.00)** a pair.  
—Men's sizes 6 to 11.  
—Women's sizes 2½ to 7.

Come and try a pair. We can promise you greater satisfaction for your money than you are likely to get in any other boot at the same price.

## Sewing Machines

Another carload of new Sewing Machines just to hand, and these seem to be better finished than ever, but they don't cost any more money for our price.

## Twenty-One Dollars

Our Seamstress is used in hundreds of homes all over Canada, and every machine, so far as we know, is giving perfect satisfaction.

The Seamstress is guaranteed for five years, and money will be refunded for any machine that goes wrong. Each machine has enough attachments for doing all kinds of plain or fancy family sewing. We carry in stock a full assortment of parts and supplies at very easy prices for any piece you may wish to get at any time.

Visit our Furniture Floor and examine this Seamstress. It is a winner for the money, and you can't get any better at any price.

## AN IMPERIAL COINAGE.

The Commonwealth of Australia is discussing the establishment of a decimal system of pounds, shillings and pence. It is to be hoped the Commonwealth will deal with the coinage question not from a local but from an imperial standpoint. The Empire ought to have an imperial coinage, and the coinage to be based on the decimal system. The unification of the coinage would help materially in welding the Empire together and in presenting it to the world as a great national unit. The change to the decimal system would facilitate trade with foreign countries and would be a great step towards the unification of the Empire.

## TOPICS OF THE DAY.

The taking of the census last April is now being discussed. It is estimated that the population of Canada is now 5,000,000. The census is a very important matter, and it is to be hoped that the government will take steps to improve it.

## SAD IGNORANCE.

Editor Wrote: To judge from those who have been making a great deal of noise about the Jarvis-St. Lawrence Collegiate Institute, there appears to be a sad ignorance about the history of the school. The school was founded in 1887, and it has since that time been a source of pride to the community.

## THE GOOD-WILL DELUSION.

Hon. David Mills is the second prominent Liberal who has recently had the courage to inform his party, the country and the world that they are living in a fool's paradise. The good-will of the United States is a very important factor in our foreign policy, and it is to be hoped that the government will take steps to improve it.
