

# MEDICAL OFFICER'S REPORT.

FOR THE YEAR 1880.

---

The Report of the General Superintendent is so full that I need only call attention to the high age attained by all who have died in the House during the past year. The youngest was 49, and the oldest 89 years of age; the average of the whole twelve being  $71\frac{1}{2}$  years. Only two were under 68 years. The general health of the inmates has been fairly good; and although a great many have required medical attendance, no serious epidemic has prevailed.

Respectfully,

UZZIEL OGDEN, M.D.
