A bouquet of roses was presented to Miss Margaret Gemmell, the club's first president, to whose tact, ability and untiring energy its success has been in a large measure due. Expressing her thanks Miss Gemmell paid a tribute to the loyalty and co-operation of all the members, and particularly the executive. Miss Willa Fitzgerald moved, and Miss Beatrice Reid seconded, a vote of thanks to the girls of the middle schol for their hospitality. This, however, by no means ended the good times. As a wind up for the outing, the middle school girls took their guests to the Grand Theatre. The high school girls' club has over one hundred members, including the pupils of the middle and upper schools. If there is an agreement reached the rewill be no need of a meeting of the men, but in the event of the board giving an award it will be brought before the men by the executive. Plans Miscarried.

It was declared to be the hope of the rebels and their German and Amerian friends to blockade Irish ports against England and establish bases in Ireland for German submarines. The rebellion broke out a day later than scheduled, on Easter Monday, but, as the world is aware, German support miscarried and it ended in complete failure. The report of the royal commission on the rebellion in Ireland follows:

How You Can Get More Money For Your WOOL

When I discovered many years ago the great difference between the amount of money the Farmer usually received from the peddler or small dealer for his wool, and the price at which the peddler or dealer sold the wool to us;

I was amazed. Of course nearly all the wool eventually comes to ourselves and a few large dealers-but the greater number of hands thro' which it has to travel the smaller the price the farmer receives as

each one has to have a profit, Consequently it seemed to me good business to deal directly with the farmer and pay him the much higher prices which we used to pay to the peddlers and middlemen-thus eliminating the peddler and middleman to a great degree.

By shipping direct to us the Farmer secures a very much higher price for his wool which in a good many cases means a profit instead of a loss to him, The satisfaction expressed by the many
