"MALE AND FEMALE" AT THE GRAND ALL THIS WEEK. "Male and Female," showing at the Grand all this week, ranks as the

greatest super-photoplay that has ever been presented in London. It is a picture of contrasts—contrasting the artificial and luxurious life of the titled Londoners with the primitive living on the desert island; contrasting the values of men, as servant becomes master and master becomes servant; contrasting the modern, primitive story of the love between man and woman with the Babylonian love story of the King of Babylon and his Christian slave. "Male and Female" has the indorsement of every man, woman and child who has witnessed this magnificent production at the Grand during the first two days of the London Conservatory of Music held last night in the Masonic Temple marked an epoch in the life of that school and the auditorium was filled for the occasion with music lovers. The sweet girl graduates in their pretty gowns were showered with great bouquets and baskets of flowers, and the audience waxed enthusiastic as number after number on the program bespoke thorrough training and abundant talent. It fell to the lot of Rev. W. L. Armitage to present the diplomas, scholarships and medals, and in doing so he referred to the very fine work exhibited by he school. He was introduced to the audience by F. L. Willgoose, principal of the London Conservatory.

The vocal numbers, of which there were three, also gave evidence of the very fine work being done at the school. Miss Florence Dewey, winner of the medal for singing, was heard sing Schira's "I Dreamt," exquisitely, and with a soprano voice which is rich and pure. "Elizabeth's Prayer," from "Tannhauser" (Wagner), rendered by Miss Gertrude Dumaresq, was another enjoyable vocal number, as were the three songs from "Cairo" (Carse), sung in delightful manner by Miss Olive Shaddock, the only artist to appear twice defigitful manner by Miss Clive Shaddock, the only artist to appear twice on the program.

Claims London Bill Defeat **Prevents Laying of Water** Mains.

Consultation between City Engineer Bra. and E. V. Buchanan, general manager for the public utilities commission, to see if some arrangement can be made for water main extensions was advised by No. 2 committee of the city council last night. A communication was recent from Mr. Buchanan, stating that because the London bill was defeated there was no money for extending water mains, and that no water service could be furnished for the homes being erected by the housing commission on the Pine Lawn site, Hamilton road. He said the commission would no longer be responsible for repairing pavements torn up for repairs to the water mains.

In regard to the latter point, City sponsible for repairing pavements torn up for repairs to the water mains.

In regard to the latter point, City Engineer Brazier stated that it would be compulsory for the commission to relay pavement which it tore up, as the streets could not be left in a mutilated condition. Ald, Drake pointed out that bylaws for paving many streets had been passed several years ago. He thought that the water mains should have been laid on these streets long ago. Mr. Brazier replied that the commission was not given notice until the paving work was about to begin. It was not notified when the bylaws were passed. Ald, Moorhead thought that a statement of the amount absolutely necessary for this purpose should be obtained. Ald, Drake asked where all the profits of the commission went and why they could not be used for this purpose.

Another paving problem arose with a communication from the City Gas Company, stating that it could make no extensions on streets which were about to be paved, because it had no funds for this purpose. Ald, Drake

no extensions on streets which were about to be paved, because it had no funds for this purpose. Ald. Drake said that the paving program should be carried out regardless of whether the gas or water extensions were made first or not. A pavement is required on Adelaide street north, but this cannot be laid because of the street railway track, which the company refuses to pave owing to lack of funds.

Ald. Seabrook thought that Central avenue, opposite the entrance to Victoria Park, should be paved also. Ald. C. G. Moorhead, acting chairman of the committee, was authorized to in-

toria Park, should be paved also. Ald. C. G. Moorhead, acting chairman of the committee, was authorized to interview the Ontario Railway Board to see if some arrangement could be made for this work.

Grading and general improvement of the east end of Nelson street was authorized. The building of a side-walk on this street has been delayed because of litigation over a piece of property. No work was done on the road pending the building of the walk, in order that the proper grades might be determined.

Encourage Use.

Paving of Thames street to encourage a more general use of the subway under the G. T. R. tracks instead of level crossings was considered, and the city engineer will submit an estimate of the cost. He advised against the work being done immediately, because it would divert additional traffic to Ridout street bridge, which is in an unsafe condition.

Dr. H. A. Stevenson asked the committee to consider paving Colborne street in the vicinity of the Alexandra school. The engineer will report, but no action will be taken unless the property owners on the street ask it.

The board of health will be asked to investigate the condition of a creek in South London near the Wharnclifferoad. It was alleged that several houses on Briscoe street empty their sewage into this stream, and that a most unhealthful condition has resulted.
