Choice Farm Lands in British Columbia

Ask for proof

HOICE farm lands at \$4.50 to \$5.00 per acre — anywhere — sounds too good.

-We realize how easy it is to make We would rather not. Give us an

opportunity to present proof.

It will cost you a postage stamp to If true, will it not be worth your while

If you have any doubts, fill out this coupon and settle the matter.

Make no mistake HESE British Columbia lands may

not be the right investment for you. Circumstances may give press-ing need for your available funds else-Where. Make no mistake.

A percentage of those looking for investment who read this advertisement can find nothing more suitable.

Those, and only those, are the ones we

desire to reach.

Special Notice

A LL payments under these contracts, pending the actual purchase, must be made to, and all remittances therefor—

cheques, drafts, money orders, etc., must be made payable only to the order of

The Toronto General

Trusts Corporation

of Toronto, Ontario-Trustee

The duties and responsibilities of the Corporation in this connection are confined solely to receiving and paying over the

noney as provided in the contracts.

the farmers' sons have had nothing

over matters with their fathers and they say: "Well, father I think we will quit the farm." They say, "Why

look at so and so, they are getting from \$800 to \$2000 a year, while all

of us on the farm could not make in

one year what one of these fellows is earning in one year." And I fancy

I can see a tear in the fathers' and

other at the old farm, and the boys leave to better their positions and

try to get the big wages that others are getting. And after they leave the farm the farmer cannot afford to

pay the high wages going, and conse-

did when his boys were home work-

ing for him, and of course, all kinds of

farm produce are getting higher in

price as less is being raised. Why, sir, if the farmer had to-day to pay

the high wages that are being paid

in towns and cities they would not

Until some change takes place, city and town people will have to pay

much higher prices for every kind of

farm produce than what they are nav-

ing now. But there are many ways

made to produce far more than what they are at present, and in my next,

will give you some of my ideas as to how I think conditions could be

TWENTY-FIVE DOOMED.

Voter.

own their farms in five years.

bettered.

Longwood, Aug. 18.

quently has to farm less land than he

One hundred sections carefully chosen lands

\$4.50 to \$5.00

per acre --- easy terms

It is particularly desired to bring these unusually low-priced lands to the attention of conservative eastern investors, who take nothing for sranted, and who, therefore, are well qualified to recognize any really good purchase that presents itself.

HE following is a description of the lands made by a man of over five years' experience in the saddle examining and selecting desirable tracts for purchasers, and whose reports are so reliable that they are included in the British Columbia Government's Bulletins, Nos. 9, 12 and 22.

Extracts from Expert's Report:

Intrinsically these lands are very valuable.

Grasses flourish luxuriantly, affording magnificent grazing and demonstrating beyond question the high fertility of the soil. Wild timothy and red top are found everywhere on the good land. Wild pea, said to be the most certain indication of rich soil, is found everywhere, and has a particularly vigorous grawth, while bunch grass is liberally distributed and flourishes. Oats give a remarkable yield, roots of every description accomplish wonders and domestic hay will yield three tons to the acre.

Wheat is an untried quantity, but as the conditions in every particular seem to parallel those in the famous Palouse District of Eastern Washington, there seems to be no reason why a big yield of the softer wheats could not be realized.

Altitude, climate and soil appear to be adapted to the production of the deciduous fruit trees, wild fruits of many varieties are very plentiful.

Please remember

And often at these prices there is a disadvantage of extremes of climate, occasional droughts, frosts, etc.

Virgin soil, ready for the plow, in a climate that is remarkable for its mildness, with abundance of water—at \$4.50

to \$5.00 per acre, sounds almost too good to be true.

Yet that is what these specially selected British Columbia Farm Lands

These lands are not a speculation.

A suggestion

I N this advertisement we are not asking you to buy land or put up a single dollar of money.

All we suggest is that it may pay extremely well to get full information about what may prove to your entire satisfaction to be the best land opportunity in this whole big North American continent to-

This information will cost you nothing but a postage stamp—filling in the coupon and writing our address on an envelope.

Out-of-town readers

OR the next two weeks there will be held in Toronto the Canadian National Exhibition

Why not kill two birds with one stone —take in the Exhibition and look up the manager of the British Columbia Lands Agency, who would prefer to meet per-sonally everyone considering a purchase?

Write, wire or phone, stating when you

may call to make sure of getting together. The soil varies from alluvial to volcanic ash.
Mountain streams are very numerous, and no district in the continent is better watered.
Fish and game are abundant.
Climatically the country has many advantages, and is much superior to that of the middle Western States and Provinces.
Speaking of the west coast district, it may be said that no serious extremes of climate will be encountered. ered.

The Japan current makes the whole coast of British Columbia mild, in fact there is no winter as the term is understood in the prairie provinces with its long periods of extremely low temperature.

The summer is warm, with long days and cool nights.

Overpowering heat is never experienced.

The winters are marked by a snowfall of 18 inches to 2 feet, with an exceedingly moderate temperature.

Coroner Pickering will open an inquest to-night into the circumstances attending the drowning of the unidentified man whose body was taken from the head and killed him instantly. His ber the rear portion of the premises. He hastened to an upper balcony facing Queen-street, and sent a passerby post haste in quest of a constable. P. C. Thompson was procured, and after throwing a score or so of boxes out of his way and giving a deaf ear to the anxious warnings of the Breakwell family in the windows, "to take care he didn't get shot," the officer forced an entry and eventually the cause of this entry and eventually the cause of thie disturbance was unearthed in a dark and obscure corner. It proved to be a rather intoxicated individual, styling himself an Englishman by name William Davis. He was taken in.

PAINT MADE OF SMOKE Discovery Which May Make Pittsburg Visible to the Naked Eye.

Take a small quantity of Pittsburg air, wash thoroly and turn loose again, advises a writer in Success Magazine. Strain the wash water and add certain ingredients which a Pennsylvania man claims to know about. The result is a paint which is said to be durable and cheap and especially adapted to tin roofs and iron work. The same air may be recaptured and used again, but the smoke is ruined forever. The system is said to be in success

fut operation in a Pennsylvania facwhere the smoke is passed thru an atomizing spray. Six tons of coal of the nice smudgy kind will, if properly treated, yield five barrels of paint, besides doing its regular work.
