## PRICE OF WHEAT **FELL WITH RAIN**

Oklahoma and Kansas Reaga ceived Supply of Much Needed Moisture,

PEACE TALK TO FORE

Fresh Rumors of Negotiations Helped Bear Side of Market.

CHICAGO, May 27.-Rains in Oklahoma and Kansas turned prices of wheat today swiftly down-grade. The close, altoday swiftly down-grade. The close, altho unsettled, was 2%c to 2%c net lower, with July at \$1.09% and September at \$1.10%. Corn lost %c to 1%c, and oats %c to 1%c. In provisions, the outcome varied from 10c decline to a rise of 15c.
Rushes to sell wheat began as soon as the market opened. For a while, however, some leading concerns took the position that at least in Oklahoma the rains were apparently not heavy enough to give more than a slight measure of relief from the long-continued drought. Later information, nevertheless, showed that more moisture had been supplied than was indicated by first reports. The consequence was greater impetus to the downward swing of the market, especially in the last hour of the session. Announcements that 500,000 bushels of wheat to come to Chicago had been purchased in Omaha tended further to emphasize the weakness here.

Peace Talk Again.

Peace talk was said by some authorities to have operated as a factor today on the bear side in wheat. How far, if at all, this was true, seemed to be largely guesswork. On the other hand, there seemed to be little or no doubt that for the time being the export call for United States wheat had been reduced to a minimum. The total sales to Europe today were estimated at 250,000 bushels, almost wholly from Manitoba.

Corn weakened with wheat, and as a result of the rains in the southwest. Sales of 80,000 bushels to exporters helped somewhat to check the decline. Oats gave way owing to breaks in the value of other grain. The most active selling the unsettled, was 2%c to 2%c net lower,
