

*Brantford and Paris.* The Town of Brantford has, during the last winter, been visited with an astonishing work of grace, which has not been confined to one section of the Church of Christ, but in the Episcopalian, Wesleyan, Congregational, Baptist, and Primitive Methodist Churches, the arm of the Lord has been made bare. Our brethren report an increase of 33. They have laboured under various disadvantages in both towns, for want of better places of worship. One Chapel has been opened during the past year, and subscriptions, to a cheering amount, have been taken up for one in Brantford. The present Mayor, W. Mathews, Esq., has lent his valuable aid to our brethren in this undertaking, which, the Committee believes, will prove a great blessing to our infant cause in that town.

*Portland.* This Mission continues to prosper; there are now 212 Church members. During the year, some members have been given to it from Kingston, in addition to which, several others were added during a very excellent revival, with which God was pleased to visit the Station.

*Bosanquet.* The Missionary labouring here has succeeded in gathering 35 members into the Church, and has established service at eight places, and is taking steps towards building a Chapel.

*Brant and Durham.* Here 26 members have become identified with our Church, and 11 places opened for preaching. The Missionary, Brother Lomas has succeeded, with the aid of friends, in getting a Parsonage erected; he has done much of the carpenter work with his own hands, and has also laboured in the harvest field, as a day-labourer, that he might get parties to assist in the building. He speaks flatteringly of the surrounding country, and loudly calls for an Assistant Missionary; but the Committee, not having men and means at its disposal, sufficient for such a purpose, are necessitated to wave such calls.

*St. Vincent.* This is a new Station, opened since the last Report was issued. The Missionary visits four different Townships, and holds services fortnightly, or otherwise, at eight places. The number of members reported at Conference is only 14, but it is confidently hoped that this number will soon be considerably augmented.

*Napanee.* This Station, situate about 25 miles from Kingston, was taken up last summer, and in the succeeding fall the Missionary held a most successful Protracted Meeting, as the result of which he has
