but closes the opening in ten days on the average case." This instrument received the only award in England and Spain, producing results without surgery, harmful injections, medical treatments or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D.C., for inspection. If any interested call, he will be glad to show the truss without charge, or fit them, if desired.

Rupture is not a tear or breach in the abdominal wall, as ignorantly supposed—therefore nothing to knit or heal—but Rupture is the dilation or stretching of a natural opening, therefore subject to closure. Don't wear a truss where the lump is, but where the Rupture is—it's different.

me—I might saw mv way out with it—my soap box, a buffer—O, yes, and my tooth brush.

It was dark when they came. I was already in bed. One 's runished if one is not up at 6 am. Do you know, I felt those things over in the dark, and I cried over them. As simple a thing as a buttonhook, on which I traced with caressing fingers the familiar inlaid monogram, could arouse that much emotion in me. That seemed like friends.

Meals Served in Wash Pail.

However, to return to the business side of the question. On Sunday I didn't eat any breakfast, nor had I teuched supper Saturday night. Black bread and coffee out of a wash pall were served at both these means. I idn't eat, for I said to myself, "O, I shall be out by 10 in the morning."

No one came, and finally they said, "Today is a holiday; be patient until tomorrow."

I asked to send word to the embassy.

No one came, and finally they said, "Today is a holiday; be patient until tomorrow."

I asked to send word to the embassy, but they wouldn't let me and soothingly repeated the formula, "Bielben Sie ganz runig bis Morgen."

Sunday dinner came, a formless, unrecognizable mess, in the same wash pail, and I refrained after a glance, the I was really hungry by that time. The day passed somehow, and I lay thru the twelve dark hours thinking, "Suerely in the morning."

It was now Monday, and again nothing happened until I was taken downstairs and asked another thousand or so questions, all of which were faithfully entered in a ledger built extra large for the purpose. By this time I was eating sparingly at times of the food they brought me.

On Monday, at noon, they gave me permission to write to the consulate, where I had many good friends, and I sent that letter off by special messenger, and it was delayed until the next day at 5. The consul general's reply was likewise delayed eighteen hours.

Ouizzed to the Limit

Reply was likewise delayed eighteen hours.

Quizzed to the Limit.

Each day at 3. with irritating punctuality, they would call me downstairs to contribute another ten pages to the book. They asked me so many irrelevant, ridiculous questions that I used to sit thru the seances with only a sily idea in my head: "In a minute they are going to ask me if I have ever heard of Anna Held."

I told them my every amusement since I had arrived in Germany, every question I had ever directed to any one, how much my salary was and how I received it, what my sentiments were toward the ailies, if I played poker; had my paper sent me there to deny Mr. Bennett's stories?—and a thousand more.

more.

But all this time people were not idle in Berlin. For some reason the charge against me had been lodged at the marine Amt, and everyone who knew me was trying to find some way to release me. Our ambassador, Mr. Gerard, applied repeatedly for my release and vainly for permission to see me, only being granted that permission me, only being granted that permission on the fifth day. Told She Was Clever Spy.

I was told I was a clever spy. and that these very things which appeared so harmless in my life in Germany—the concerts I went to and the quiet dinners at the homes of my friends—would be the things a clever spy would do to divert suspicion.

But at last it was settled, on the day after Mr. Gerard had sont a cable to get Ambassador Von Bernsdorff to advise his government of my integrity,

advise his government of my integrity that my release was arranged for before any answer could come back, and in spite of the fact that an officer from the marine department had told me, as per schedule, "to be patient; that it would take another three duys." I think they were finally convinced that they had made a stupid mistake But did they apologize to me? J'amais de la vie, as they say in the good old town I am going back to as quickly as a train will take me. They were positively abject to the embassy, but merely got a scolding and a warn-

Pavlowa Academy Has Many Advantages Over the Old Fashion Way.

A great many people nowadays are talking about the benefits to be derived from the modern dances. That health, grace and style are improved by these dances where the proper conditions exist there can be no doubt. Good ventilation is important to any indoor exercise, and here is where Pavlowa Academy has such big advantage over the small places with low ceilings. The high arched roof at this academy, coupled with the perfect ventilation, always ensures a large volume of pure fresh air at all times.

Pavlowa Academy is getting big crowds these nights, and the class of people that attend this place are counted among the best in the city. It is very doubtful if there is another amusement of any kind in Canada, where the class of patronage equals Pavlowa Academy.

At the very beginning, when this academy first opened, it was made and the class of patronage equals the content of the content of the proper of food. Were every householder of food. Were e

where the class of patronage equals Pavlowa Academy.

At the very beginning, when this academy first opened, it was made known that Pavlowa would cater only to the very best people in this city, and this policy has always been in force. The Pavlowa School of Dancing is an excellent school to learn the new dances. You will find superfor conditions for pupils and a system in vogue which enables you to learn the Fox Trot; Hesitation or One-step in a remarkable short time and at a moderate cost.

IN MEMORIAM. DODS-In loving memory of Helen cilia Dods, who departed from this life

March 7th, 1913. Had I but seen her at the last,
And watched her dying bed.
Or heard the last sigh of her heart,
Or held her drooping head,
My heart, I think, would not have
Such bitterness and gries,
But God had ordered otherwise,
And now she rests in peace.
