ST. PAUL'S, LONDON FINE SINGERS SCORE BIG HIT

Prince Ilma, baritone; Dora DeVera, dramatic soprano, and Betty Vreeland, contralto, now at the Opera House, are far superior to most of the singers heard in concert here, as thousands who have heard them on Friday and Saturday will agree. With four other exceptionally good acts, these singers will close their ngagement tonight, as a new show is coming Tuesday.

Another singer who is attracting attention on the same bill is Miss Dora Hilton, whose voice has been described Hilton, whose voice has been described by the critics as "golden" and, so the audience thinks, deservedly. Miss Hilton's success is great and positive, for her soprano is colorful, flexible and of wide range, every note beautifully rounded. Carroll, Baker and Cameron, two talkative young men and a shapely rounded in red who can talk much faster than either of them, also are among the winners. Sydney and Seamans, hand balancers, and Danny Simmons, Scotch States.

"I feel I must write and let you know how thankful I am for the benefit I have derived from taking your famous Clarke's Blood Mixture. For four months I was crippled with Rheumatic Gout and my legs and feet were so bad I could not stand. My doctor ordered me to bed in blankets and there I stayed for a whole fortnight, but did not get any better. At last I decided to try your Clarke's Blood Mixture, and after having four bottles I am now quite well, able to do my work, and get about again. It is now four weeks since I left off taking Clarke's Blood Mixture and I have felt no signs of Rheumatism since niy wonderful recovery. My friends gave up hope of seeing me about again, and I myself can hardly realise that I have suffered so much. My mether, who is a sufferer from the same complaint, is now taking it and already feels better. I will do my best to recommend Clarke's Blood Mix ture to my friends, and to show you my thanks you have my permission to make whatever use you please with this letter."

There is now offered to the public a preparation having the DOUBLE action of an intestinal antiseptic and a COMPLETE system cleanser. This preparation, known as Adlerika, acts as follows: It tends to eliminate or destroy harmful germs and colon bacili in the intestinal canal, thus guarding against appendicitis and other diseases having their start here.

It is the most complete system cleanser ever offered to the public, acting on BOTH upper and lower bowel and removing foul matter which poisoned the system for months, and which nothing else can dislodge. It brings out all gasses, thus immediately relieving pressure on the heart. It is astonishing the great amount of poisonous matter Adlerika draws from the alimentary canalmatter you never thought was in your system.
