TEN NEW CRUISERS WILL BE DEMANDED

London Paper Predicts "Die-hard" Pressure For 10,000-ton Vessels

Canadian Press Despatch. LONDON, June 11.—Apropos of a remark made by Lloyd George in a speech in connection with the by-election in the Eastbourne division of Sussex to the effect that the only navy he knew which menaced Great Britain was now old iron at the bottom of the sea, the Daily News today prints an article by Lieutenant Commander J. M. Kenworthy, Liberal M. P. for Central Hull, asserting that the die-hard Tories will demand that 10 new 10,000-ton cruisers shall be built and that the Baldwin government probably will decide to lay down five such cruisers at a cost of £3,000,000 apiece.

Lloyd George Draws Picture of Baldwin and Churchill

Canadian Press Despatch. LONDON, June 11.—Lloyd George, speaking in the by-election in the Eastbourne division of Sussex, caused through the appointment of Sir George Lloyd, Conservative M. P., as High Commissioner for Egypt in succession to Field Marshal Viscount Allenby, delivered his opinion on Premier Baldwin and Chancellor of the Exchequer Winston Churchill. "Both of them are very good fellows in their own way," Lloyd George said, "but they hold the weakness in common of being very headstrong. You would hardly think it of Mr. Baldwin for he looks so domesticated, but he went to America and made a head-long, one-sided arrangement, which was protested against strongly by our Premier at the time. Mr. Bonar Law, for lying us up to pay America £34,000,000 for 54 years, while we, up to the present, have not received a penny piece from the people to whom we lent £2,000,000,000. As for Mr. Churchill, he is a very clever man, but he is a bolter, not from danger, but into danger. The biggest luxury I know of is Mr. Churchill himself. He is a very costly one, as the government has discovered."

PROGRESSIVE ASSOCIATION PRESENTS CASE

Breakwater and West Side Before Courtenay Bay

BRIDGE TALKED OF

Delegates at City Hall Express Belief Money Will Come If Asked For

A REQUEST that the port committee ask the Federal Government to estimate any sums for harbor facilities at the port of Saint John for the works on the western side of the harbor until these works had been completed, and that the first work to be undertaken be the extension of the Negro Point breakwater and the completion of No. 17 berth, was presented this morning by a delegation from the West Side Progressive Association at a conference in the office of Mayor Potts.

Those present at the conference were the members of the port committee, which includes members of the council and of the Board of Trade, other interested members of the Board of Trade and the delegation from the West Side organization.

SAYS MILLION. The president of the association, N. P. MacLeod, said he had the assurance that if the port committee requested the government to estimate the amount of money which is to be placed in the supplementary estimates for expenditure on the west side, it would be done, and he expressed the opinion that this amount should not be less than \$1,000,000.

The matter of a bridge across the harbor was also referred to and Commissioner Bullock advocated this as one of the best means of the C. N. R. making a good bargain with the C. P. R. for running rights to West Saint John.

Included among those present were Hon. W. E. Foster, M.L.A.; W. E. Scully, M.L.A.; A. P. Paterson, J. G. Harrison, H. Sedfield, Harold Mayes, J. Firth Brittain, Thomas Nagle, F. Maclure Scanders, D. W. Ledingham, N. P. MacLeod, W. J. Wetmore, Percy Turcotte, L. W. Simms, C. S. Pugh, G. H. Waring, C. Strang, Dr. F. L. Kenney, L. V. Lingley, C. O. Morris, J. G. Ryan and Thomas Hippey.

Mayor Potts said the meeting was being held at the request of the West Side Progressive Association. The council had gone into the matter mentioned in the letter of the association and had taken what action they thought was necessary. He asked that the association speakers place their case before the meeting.

CASE PRESENTED. N. P. MacLeod said the association was a community body formed primarily to further the interests of the West Side, but its members also remembered that they had a stake in the whole city, and for that reason they had given a great deal of thought to the matter of harbor development. There had been a great deal of talk about the handicaps under which the Maritimes were suffering, and if the association could do anything to remove any of these it would be doing something worth while.
