P. Townsend pleaded guilty to forging examined them. check for \$30, and was sentenced by Magistrate Russell to three months at hard labor. The light sentence was due to the fact that Townsend was partially irresponsible through drink when he committed the offence.

NEW WESTMINSTER. New Westminster, July 9.-Although the sockeyes are scarce in the lower part of the Fraser, it is reported that there are quite a number in the upper part of the river. The big run is not expected to commence until August.

The rush for recording claims is now er, and at the present time the officials at the local office are busily engaged recording assessment work. This is a good sign, as it shows that the owners are satisfied that their claims are worth spending \$100 worth of work on. The road from the shore of Pitt lake group, on Lemon creek, has now ning claims has been located by Mr. Sprott, government inspector of eds, and work will be commenced on mill in within the next 60 days. Assays Monday with a gang of eight or ten men. The road in question will be about half

fish to be paid. In consequence of the ondon market the canners-or a numof them-have reduced the price of The price paid last year was 25 cents, and the fishermen hold that the figure offered by the canners is not enough. The Indians were the first to show discontent, and they have threatened to return home unless they are paid 25 cents per fish, as in previous years. The other ermen-both white and Japaneseoined the Indians in their "kick," and vesterday it was decided to hold a mass ing of fishermen in the opera house Steveston and thoroughly discuss the sfion. The meeting was duly held night, and it is estimated that over

1.000 fishermen were present, 700 being white men and 500 Japanese and All the questions relating to price of fish were fully discussed, it was eventually decided to demand would go out on strike. Four white dressed the meeting, besides sev-Jans and Indians. A committee appointed to interview the canners request them to sign an agreement price mentioned, otherwise ras decided to order a general strike turday next. Several canners were sked what price would be pair for fish They all stated that not more than 10 cents per fish would be season, owing to the low price of salthe English market. In 1893. e last "big" year, salmon was quoted andon at 6 shillings per case higher and yet the price paid for fish during hat year was only 7 cents." In view of these circumstances, the demand made by the fishermen for 15 cents per fish throughout the season is absurd. At present hardly any fish are running, and

fish for the present to eight cents each. 000, of which \$5,000 was paid down and the balance will be due on the 20th of this month. This stock will be placed in escrow in a Vancouver bank until the final payment is made. Early this week Thomas Dunn and W. Farrell, of Vancouver, arrived in this city, went up to the workings, and were apparently highly pleased with the result of their investigations. Thursday evening Mr. Martin received a telegram from Mr. Dunn asking for an extension of 60 days on the option. This, Mr. Martin informed a News man, they did not care to grant, but thought he and his associates would probably grant a 40 days'

extension. (Slocan Pioneer.) James Smith, who is interested with ents per fish for the entire season, or John Tinglin in the Alta and St. Louis, on the second north fork of Lemon creek, was in from the hills this week The assessment work on both of the above claims has been completed, but the discoveries made on the St. Louis were of such an encouraging character that they will continue working it until it is tapped with a crosscut tunnel at a depth of 25 feet. When the assessmen work was completed they were working in a ledge running from 13 to 18 inches, an average assay from which showed

\$200 in gold and six ounces silver. Peter Schoenberg came in from the hills on Friday and informed the Pioneer that suit had been begun by the original owners of the Two Friends against the demand promoters of the late mining company of that name, to recover their share of the sum realized from the sale of certain ore. Mr. Schoenberg also brought it is not expected that the run will commence for ten days or a fortnight yet, that the matters in dispute may be the point where the company stopped work, and a stripping of the ledge for The heavy rains during the last week some distance would indicate that it or so have destroyed the cherry crops, was running northeast and southwest inracking and rotting the cherries on the stead of directly east and west, as was

SANDON.

The Enterprise has within the last week increased its working force to 12 men and is prosecuting with vigor the development work, which will prepare it for shipping at the return of the rawhiding season. It was a good vein of 200ounce ore, which is becoming richer with the increasing depth.

The Last Chance, owing to difficulty in contending with the water in the tunnel, has decreased its force to four men, where there are generally 15. The main tunnel is in 300 feet and work is now being done on a crosscut, which is ateady in to a depth of 500 feet. The ledge shows an 18-inch paystreak of 200-ounce ore. One thousand tons have been shipped from this property during the past

GRAND FORKS. Grand Forks, July 4.-Charles Van Ness, of this city, has on exhibition rock which is undoubtedly the richest that has yet been produced in this section. stances as large as twice the size of a pinhead. The ore is from the Rattler claim, on the reservation, about four miles north of Eureka camp. According to Mr. Van Ness' description, there The shipment of ore from the Howard is four feet of this quartz, which carries Fraction, on Slocan lake, went \$94 to mactically the same value, \$5,000 to the the ton. The shipment was 20 tons, ton, across the entire ledge. Mose Burns and Henry Ellis, who discovered the claim, are working on it. So far as e work has gone the ledge has steadily maintained a width of four feet, and there is little doubt that it is a true vein. From present indications the Rattler will be one of the greatest free milling propositions in this part of the country.

ROSSLAND.

Rossland Miner. A crosscut has been started on the big ore chute orened in the Monte Cristo. An assay of \$42 in gold was obtained esterday from the bottom of the Evening Star shaft. Day and night shifts are now working on this property. A. S. Goodeve, of the Bruce Mining

Company, will leave on Saturday for a trip to Toronto and other eastern points in the interests of his company. He hopes to place sufficient additional treasury stock to secure a power plant for the company's property, the Norway, on the Columbia river a half mile below Trail. The first bid for Rossland's first issue of debentures was laid before the council last evening. It was from Dixon Johnson, on behalf of Armstrong & Co., of Toronto. It was for the whole \$50,000 worth of the city's debentures and was referred to the finance committee. firm offered to buy the ten year bonds at par and the 15 and 20 year obligations at 101. The mayor announced that other and better offers for the bonds were

expected.

Rolt & Grogan have some beautiful specimens of free gold in white qartz.

The Pug mine, near Waneta, has been relocated by Jonathan White and J. B. Miller under the name of the Golden ager of the company. It is presumed that the move of Messrs. White and Miller in relocating the claim was caused by a desire to protect the company's interest until the arrival of a crown grant.

The ore has been found in the No. 1 tunnel of the Sunset No. 2. For some time a break in the vein has been causing a good deal of trouble. This has now been overcome and there has now been found a good body of ore running

about \$20 in gold. Telegrams were received in Rossland vesterday from parties in Toronto and Montreal making inquiries about the townsite of Robson. One of the telegrams asked that an option be obtained if possible on the entire Robson town-This is taken to mean that the C.P.R. has come to a definite conclusion concerning the establishment of the smelting industry at Robson. It has long been thought the C.P.R. would select Robson for this purpose. It has many natural advantages for the smglt-

ing business.

The continued absence of W. A. Campbell from the camp is arousing a good deal of comment, and it is reported that some sensational dispatches on the subject have found their way into outside papers. Mr. Campbell had very large interests here and in March was elected a member of Rossland's first board of island has the government taken any aldermen. He has never qualified, and steps to guard the rights of the "free as far as the Miner knows has not indicated any intention of doing so. Upon fice of O. T. Stone on Saturday last. inquiry the Miner has learned upon authority not to be disputed that Mr. pleted satisfactorily, was taken off the Campbell has settled all his obligations here and taken steps to close up his busianswer. This inattention and tack of ness. He probably does not intend to

NEW DENVER.

The Ledge. McLean & Sons, of London, England. have leased 11 miles of placer ground

been dammed, and 18 inch water nines Wigwam. The whole mountain is a mass Vancouver Yacht Club arrived at their in this week. The concentrator has been ordered in Chicago, and will be placed in position next month. By September the mill will be running and the Currie placed on the already long list of Slocan shippers.

TROUT LAKE CITY. Trout Lake City, July 1.-E. L. Kinman recorded the discovery of a four foot lead of nickel ore last week. It was found three miles above Ferguson. An assay from float from the lead went per cent, in nickel. The formation is talco-schist, which is right for this mineral. Specimens brought down from effect of this shabby and disgracefur the lead for assay show millerite, an ore of nickel, which goes 20 to 30 per cent. The well known Sudbury nickel leads go as a rule from 2 to 4 per cent.

Messrs. Byrnes and Doyle, two Spo-

kane prospectors, have struck some more gold leads on Tenderfoot creek, south of the lake. They are driving a 100-foot tunnel on the Lilas, on the same creek, specimens from which have assayed as hight as \$82 in gold and 413 unces in silver, and the claim is showing up very satisfactorily.

The country is being prospected as it never was before, and locations are com ing in to the recorder's office at the rate of over twenty a day. Building is going on in town as fast as the saw mill can supply the lumber.

It is estimated that the farmers of the windermere district will produce a mil-Windermere district will produce a million pounds of grain this season. J. Snowden has sold the Glen Craig himself and Messrs. Shatford and Man-claim, between Porcupine and Bear gott, the officiary assay of which gives

Messrs. Moody and Connor report having found four leads in the course of their last prospecting tour of the Blue water country.

There is an immense traffic on the C.

and Baniff waiting to be moved. A. Campbell informs us that the crops around Golden are better this season than he has hitherto known them. We

Customs duties collected at Golden by C. H. Parson for the month of June amounted to \$783, the highest monthly return since Golden was made a place of customs entry. The inland revenue collected at Golden for the quarter ending June 30th amounted to \$2,021,45.

Just as we go to press we learn that a woman has been taken by special train to the C. P. R. hospital at Donald, who had been run into by an engine at Glacier station. Her arm was broken, and she was supposed to have sustained

view to investing in that locality.

Captain Armstrong informs us that several fine discoveries of ore have been

made in the Windermere district, especially on Horsethief and Toby creeks; also at No. 2 creek, at the southern extremity of the Golden division The Horne Payne Company are in treaty for the Brown Bear property at Illecilliwaet. This claim is owned by W. G. Neilson, who has as co-proprietors Messrs, Kirkpatrick, Elson and Griffiths. The assays of ore from this claim have averaged 123 ounces of silver to the ton. Neilson went to Illecilliwaet on Tuesday to meet the representative of

the company and take him over the On Sunday night a mishap befel No. 2 train shortly after leaving Golden When about four miles up the Kickinghorse canyon the Pullman car left the rails and turned over on its side. There were about 13 passengers in the car at the time, and all escaped unhurt, except a gentleman who had one of his arms slightly bruised. The under gear of the car appeared to be all right, and the cause of the accident is unaccount-

The Kootenalan Somebody said a while ago that there would never be a smelter built at Kaslo ecause of the impossibility of obtaining fluxing ores, but there are some moneyed and practical men who have been sizing up the situation, and have come to the conclusion that Kaslo is a rare good smelter site, and who are at the present time figuring on the proposi-

A meeting of the directors of the London Hill Company was held in the ofwhen the tunnel, which has been comstart work putting out the ore at once and to build an ore shed at Bear lake. There is a good showing of ore in sight, and the directors are counting on shipping a carload a week to start with. The property is looking first rate, and the diors are naturally jubilant.

During the past few days another property tributary to Kaslo has been laced under active development work. We refer to the Lost Paradise group, behind the famous Blue Bell mine on Kootenay Lake, about nine miles from Kaslo. A contract has been let to sink on the lead a shaft 6x4, and two shifts are now hard at work. Men will also be put on to strip the vein at intervals of 30 feet, the intention of the management being to thoroughly prospect the property, both on the surface and under-

Duncan McPhail, Dan McPhal, Neil McFadden and Jim McDonald have r deal on with some Toronto capitain ts for \$50,000 bond on a group of seven claims on the Upper Duncan river. W. H. Goodwin, for Jack Red ling, har ust completed a deal by which .1gr. H. Eummelen acquires the Leadville and

Eureka claims on Hooker creek. Col. S. W. Ray, of Port Arthur, has been in Kaslo for a few days larely, and speaking of the Dardanelles group said: The machinery which we have ordered, consisting of a 60 horse-power boiler, three drill Rand air compressor, No. Cameron pump, patent skip bucket, air pipe, steam pipe, wire rope, et !., is expected to arrive this week and will be men will be put to work on the property as can be economically employ . The development already done consists of 2:0 feet of shaft and 1,300 feet of drifts and raises. Two hundred and fifty tons of ore, giving smelter returns of 265 ounces in silver and 26 per cent, lead and 76. tons of second grade ore, returing 7% ounces silver and 16 per cent lead have been shipped and about 500 tons of ore

are now on the dump.

FAIRVIEW. Vernon News. The Stratheyre Co. have appointed J. . Montieth their manager. The Smuggler Co. cleaned up for the irst time on the first of the present month, after putting 50 tons of their average ore through the Stratheyre mill. The result was a brick of gold weighing 40 ounces, while the concentrates are of the richest kind. The latter will be shipped to Everett after the next clean up. Messrs. Dier, Davidson & Russell have 15 four-horse teams on the road between the camp and Penticton hauling the machinery for their stamp mill. This fir n have purchased the Stemwinder from

Sheean & Gawtkin. Last week there was a new stri' made by Chas. Richter and Jack A' ison, 12 miles from this camp, on Krug r mountain. A sample from the ledge assayed by Carr & Co. gave \$1,000.77 n gold, and the quartz seemed to be a free milling proposition. The ledge is in the neighborhood of 5 feet wide, well defined and solid. It is certainly a re-Golden Era.

This season is the wettest that has been experienced in the upper Columbia valley for a number of years.

It is estimated that the formula in the face of the mountain, affording a splendid chance for working it, and is within easy access of the Keremeos and Penticton road. There are a number of claims adjoining it, a rough valuation of markable find, running into the face of Jack Cootenay located one alongside for creeks, to J. D. S. Wallbridge, of San- \$19 in gold, \$2.40 in silver and \$36.36 in copper.

Revelstoke Herald.

Comaplix, July 3.-Ninety-eight claims have been recorded in the Lardeau dis-P. R. at present. We are informed there | trict during the month of June. Several were 400 cars of freight between Golden very promising samples of highly mineralized rock have been brought in hy prospectors from Rish Creek lately. One sample assayed as high as ninety ounces hear similarly good accounts from all are the only requisites necessary parts of the Columbia valley. in silver.
