

Hard Wood Packing Boxes.

A New Industry That Might Be Pushed Here

A new industry is the making of hardwood packing boxes. It is said that of late years 40 per cent. of the pine marketed has entered into the manufacture of packing cases. As the pine tree is "passing," and as there is an increasing demand for "shooks" the new industry is born of the demand—"necessity is the mother of invention."

Birch, beech, maple, etc., cut into thin veneers, and cemented together three ply, the thickness of the whole about 5-16 of an inch, makes a very superior packing case for light merchandise. The new box is practically water proof, very strong, and much lighter, a no inconsiderable item.

A factory for making this kind of a case is now in operation in Toronto. Another will be built on the North Shore.

As the St. John river districts abound in hardwood the industry should find a foot-hold here.

Ironical Ifs.

It wasn't for enthusiasm but little would ever be accomplished.

If a man loses his situation it's apt to make him feel out of place.

If you can't say anything good of your neighbor you can at least keep silent.

If a man gives you advice freely it's probably because he wants to get rid of it.

If woman proposed one rejection would crush her proud spirit beyond recovery.

If every man didn't have to make his reputation there might be more good ones.

If a woman has blond hair it doesn't necessarily follow that she is light headed.

If a girl tells you she can't sing, give her credit for being truthful and keep quiet.

If our neighbors would do things as we think they should it would be much easier to love them.

If there is one thing that pleases a woman more than another, it is to have the minister ask for a second piece of pie.

Dear Sirs.—Constipation for years has been my chief ailment; it seemed to come oftener in spite of all I could do. However some time ago I was told to use Dr. Chase's Kidney-Liver Pills, which I have done, with the result of what now appears to be a perfect cure.— Truly yours,
J. HARRIS

Our Poultry In England.

The commissioner of agriculture received advices today of the sale of trial shipments on Ontario fattened poultry sent from St. John to Liverpool about a month ago. The birds met a ready sale in Liverpool at 16 cents per pound, wholesale. The chickens were sent plucked but not drawn, and weighed an average of 5 1-2 pounds each. The wholesale price therefore was equal to \$1.76 per pair. The chickens when put up to fatten were worth 50 cents per pair. The food consumed per pair during the fattening cost 31 cents, making a total cost of 81 cents per pair, without allowing anything for the labor of attending them. The packing cases cost at the rate of three cents per pair, and the transportation and selling charges would cost, in the usual course of business for such chickens, not more than 22 cents per pair, a total of \$1.06, leaving 70 cents per pair for the labor and profit.

DR. A. W. CHASE LECTURING AT ANN ARBOR, MICH.

THE MEDICAL PROFESSION

Recommend Dr. A. W. Chase's Ointment.

Dr. C. M. Harlan, writing in the American Journal of Health, of February 19, says:—

"Among the proprietary medicines deserving recognition is 'Dr. Chase's Ointment,' compounded by THE DR. A. W. CHASE MEDICINE CO., Buffalo, N. Y., and Edmanson, Bates Co., Toronto, Ont., as a remedy for sores, eruptions, and skin diseases of all kinds, for which it has been used with marked success, and has effected remarkable cures in many obstinate cases which seemed to baffle the skillful medical attendant. The results were most favourable, proving the value of 'Dr. Chase's Ointment' as a curative agent in the diseases named. The manufacturers of the remedy are well-known as experienced pharmacists, careful and reliable, in addition to which we have made full examination, and find the article to be all that is claimed for it. It is not the practice of the medical profession to indorse indiscriminately the use of proprietary medicines, but while we condemn the bad and worthless, we are still more ready to indorse and recommend the remedy deserving the recognition. Neither the physician nor the responsible Journal of Health now refuses to acknowledge the claims of such proprietary remedies as 'Dr. Chase's Ointment,' which prove their virtues by curing where other agencies have failed. We know that 'Dr. Chase's Ointment' meets all requisitions of the highest standard of worth, that it will be held in high esteem wherever it is used, and consequently we indorse it to every reader."
