GOLD 7-30 LOAN.
A profitable and secure Investment.
THE Northern Pacific Railroad Company offers to the public an investment security which combines the ready negotiability, the convenience, and the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

Traffic. As officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent. is from Local business, and, it is stated, fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future.

The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is $7.04 per acre—the highest average of any grant being $13.98, and the lowest $3.07. With few exceptions, *the average selling price has steadily increased from year to year.* The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of $7.04 per acre, they will yield more than $161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant ($3.07), they will produce more than $70,000 per mile. These facts regarding Pacific Railroad earning, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of Northern Pacific Railroad Bonds.

Construction. The road is now completed across Minnesota, (255 miles); work is progressing westward through Dakota, and 65 miles are under construction on the Pacific coast. Including purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. Contracts are let for the construction of 685 miles more, to be finished before the close of 1872.

The 7-30 Gold Bonds. The first mortgage bonds of this company, *which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country,* have the following leading features:

1. They are exempt from United States tax: the Principal and Interest are payable in gold—the principal in 30 years, and the interest semi-annually at the rate of 7-3-10 per cent. per annum. Denominations, from $100 to $10,000. Present selling price—par and accrued interest in United States currency at present rate of gold (109) these bonds yield 8 per cent gold interest.

2. The bonds are a first and only Mortgage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each mile of track.

3. They are at all times receivable at 10 per cent. premium (1.10), in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders, (Messrs. Jay Cooke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if necessary.

Exchanging 5-20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,—$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third.

All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven-Thirties without expense to the investor.

AUCTION SALES.

Notice of Sale!

To be sold by Public Auction on SATURDAY the ninth day of March next, at twelve of the clock, noon, at Chubb's Corner (so called) in the City of Saint John, in the City and County of Saint John, for payment of the debts of the late Jean Bruemer, of the said City of Saint John, deceased, in consequence of a deficiency in the personal Estate of the deceased, for that purpose, pursuant to a license obtained from the Probate Court of the said City and County of Saint John, the Lands and Premises following, that is to say:

"ALL that LOT of LAND situate in the said City of Saint John, and bounded as follows—on the South of Saint James street; on the West, by land owned by one John Leetch; on the North by the rear of the lot; and on the East by land occupied by one Thomas Grimes, forty feet by one hundred feet, with a Dwelling House and appurtenances thereon, subject, nevertheless, to the widow's right of dower.

Dated 28th December, 1871.
dec 26—t s CATHERINE BRUEMER.

ROBERT MARSHALL,
jan 6 tf GENERAL AGENT.

J. D. LAWLOR,
MANUFACTURER OF THE
Singer, Howe and Lawlor's
PATENT
SEWING MACHINES.
ALSO—AGENT FOR THE
Florence Reversible
FEED SEWING MACHINE
The only Machine that will make
FOUR KINDS OF STITCH.
The Subscriber would respectfully state that he has the
GREATEST VARIETY
OF
FIRST-CLASS MACHINES
in this market,
FOR THE DIFFERENT KINDS OF WORK.
He also keeps two mechanics, constantly, in the St. John Office, for
REPAIRING
All kinds of Sewing Machines,
which is an advantage, as parties buying from Agents cannot get Machines properly repaired, unless they are sent to the manufacturer, which may be at a great distance.
All the findings for the different Machines are kept constantly on hand.
J. D. LAWLOR,
jan 15 3m 82 King street.

THE IMPROVED
Bourdon Steam Guage.
THERE is no perishable or corrodible material used in any of the working parts of these Guages. The Bourdon's Tube is made of Nickel, which is non-corrosive, and retains its elasticity for a great length of time.
All parts of these Guages are made with the greatest care and attention to detail; and every Guage is accurately tested against a mercurial column, so as to insure their being perfectly correct.
