

Report of Knox Church Missionary Association.

IN returning our report for the past year, we wish to return thanks to the Almighty God for His goodness to us in instilling into the hearts of His people an increased spirit of liberality for the spread of the gospel.

Particularly are we grateful for the success attending the faithful and earnest work done by the collectors. We find a substantial increase over past years in the amount thus received. Although we can report no increase over last year's missionary giving, yet we recognize the fact that the congregation have been responding liberally to other calls.

Let us, then, in the coming year be more zealous in the great work. "Go ye into all the earth and preach the gospel." Let each do his part. Union is strength. If each of our nearly eight hundred members use his talents in the work, our cords will be lengthened, our stakes will be strengthened, and God will increase us as men with a flock. Then God will appear unto His servants and His Glory unto their children. The beauty of the Lord our God will be upon us, and the work of our hands will be established.

REPORT OF KNOX CHURCH MISSION COMMITTEE FOR 1898.
