PRESENT :—Messrs. Bourdages, Morin, Dorion, Stuart, Taschereau, Neilson, Létourneau and Cuvillier.

Mr. BOURDAGES in the Chair.

*William Green*, Esquire, again appeared before the Committee, and was examined as follows :—

Perceiving that in your Affidavit the 26th February is given as the day of your examination before the Committee last year, be pleased to inform the Committee what means you had in giving this Affidavit, or now have of ascertaining that day?—I believe that in my draught of the Affidavit there was a blank for the date and that in the Copy the Attorney General sent to me to swear to the blank was filled with that day, which I suppose he had filled in from the documents he had before him, that is the printed report, and I now suppose that it did not occur to me that the date was material.

Are you sure you made no observation at the time the examination was read over to you?—I do not recollect having made any observation at the time.

What were the observations you have stated were made by Mr. Lafontaine on another occasion upon which you state part of your answers were not taken down?—That it was not material.

Do you say that your observations that you state were not taken down were addressed to Mr. Lafontaine or to any other Member of the Committee?—To Mr. Lafontaine.

What other Members of the Committee, or other persons were present at the time?—I am not aware of any other persons being present.

Do you state that the observations you made in presence of Mr. Lafontaine, and which you say were not taken down, occurred before or after your examination was read to you?—After.

How long after?—It might have been a day or two.

Who called upon you to come before the Committee at the time you state you made the observations to Mr. Lafontaine, which were not taken down?—I cannot recollect whom I was sent by, but I considered myself regularly to appear before the Committee.
