

# Missionary Campaigner

(SEE PAGE 37)

The material for the Monthly Missionary Study is furnished by the students of our different colleges. The articles are short and strong with convincing facts.

We try to furnish some missionary information regarding every country in the world during each year.

We furnish the MISSIONARY CAMPAIGNER at cost of publishing. If we have any surplus we use it in sending out sample copies. We find it of great advantage to send sample copies to our Campaigners who are speaking at different meetings all over the country. We would be glad of financial help for this means of increasing our young people in our work. We acknowledge with thanks all sums sent, and render careful account of the way it is spent. Our goal was to help articles by increasing circulation. This not only widens our circle of influence but lowers the cost of publishing and increases the value of our advertising space.

*Advertising Rates furnished on application.*
