

A Doctor or a Fool.

Every man at forty is a doctor or a fool, is a proverb which states a general truth perhaps a little sharply. Without any exaggeration, the meaning is that every man learns by experience what is good for him: what he can eat and drink and what he cannot; what medicines he can take to his advantage and what he must let alone. In this sense the proverb is true.

Then, what is the experience on this subject of the great bulk of the men and women of Canada. It is that Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cures pretty nearly every complaint of the stomach, liver, kidneys and bowels. This is a broad statement, but a truthful one, and is vouched for by the experience of tens of thousands of people who have received great benefit from the pills.

It is easy to become a good doctor under these circumstances. During the North-West Rebellion a volunteer took with him a few remedies of this kind, which he used on himself and his comrades as directed. He became famous in his company and regiment for his cures, and, as long as his remedies lasted, he was more sought after than the regimental surgeon. The remedies mentioned in this book are sufficient to provide a medical chest, which cures pretty nearly the whole range of diseases in every household.

And what does DR. WILSON'S ANTI-BILIOUS AND PRESERVING PILLS do?

They cure Indigestion.

Indigestion which is the seed ground of disease. Indigestion which leads to many others of greater terrors and harder names; but all arising from the same cause. Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS will cure Indigestion.

They cure Liver complaint.

Liver complaint which lurks in Indigestion is cured by Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS. How distressing are the symptoms of this disease; how enervating and how depressing. But Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS relieve them though doing away with the cause.

They cure Diarrhoea.

Diarrhoea, a painful, weakening and dangerous disease, is cured by Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS. This disease should not be allowed to run, lest it should run too far. Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS will stop it.

They cure dysentery or bloody flux.

Dysentery or Bloody Flux is a stage of Diarrhoea further in advance. In it blood is forced through the soft, pulpy coatings of the vessels, so rendered by the irritating mucus. The straining completes the mischief. Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS will cure this disease. But wise men

and wise women will never let Diarrhoea get so far.

They cure Piles.

Piles, so painful, so destructive of peace, is cured by Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS. They will cure either Blind Piles or Bloody Piles. The latter is caused by the knots of vessels at the fundament swelling and bursting. Sometimes these are cured by operations. But before the physician's knife is tried, it is better to give Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS a chance. It is seldom that these simple remedies fail.

They cure Jaundice.

Jaundice is dreaded probably as much as any other disease. It is one of the results of imperfect digestion. Everybody knows its symptoms, and many who have made the trial know that Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure it.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure waterbrash.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure heartburn.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure colic.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure pain and flatulence in the bowels.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure costiveness.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure sick headache.

Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS cure practically all diseases of the digestive organs.

Then use Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS.

WORTH FIFTY DOLLARS A BOX.

CARLETON.

Mr. J. W. Brayley.

SIR,—I have used Dr. Wilson's ANTI-BILIOUS AND PRESERVING PILLS through a period of four years. I have recommended them to many persons afflicted with headache and bilious derangement, and administered them frequently to those about me or under my care with invariably good results. We use little or no drugs besides in our family; by the timely use of these Pills we are, no doubt, saved many a trip for the physician. A friend of mine, who has a good right to know, said to me, "If I was travelling, and had but one box of Dr. Wilson's Pills, I would not part with it for fifty dollars, if I knew I could not get another." I cheerfully endorse his opinion as to their value under the circumstances. My own is, there is no other Pill equal to them.

HENRY G. CASEY.

TURKISH DYES DYE EVERYTHING.
