85 COLBORNE ST., TOR

BEWARE OF IMITATIONS.—Since Dr. Thomas' Eclectric Oil has become celebrated, a numbtr of unprincipled persons have been endeavouring to palm off Electron and Electric Oil for the genuine Dr. Thomas' Eclectric Oil. Beware of these similar named articles. If the originators had any faith in the healing properties of their own medicines they would, like honest men, give them a name of their own, and not try to sell 1 50 them on the reputation of another; but as they know their preparations have no merit, they resort to the most unprincipled means of selling them by getting a name as near as possible to Eclectric, We therefore ask the public when purchasing to see that the name Dr Thomas' Eclectric Oil is on the front of the wrapper, and the signature of North rop & Lyman, the proprietors for Canada on the back.

CONSUMPTION CAN BE CURED.

1.5 CHURC & STREET, TOBONTO, ONT. M. Hilton William , M.D., M.C.P.S.O., Proprietor,

Who personally receives patients at the Institute for the cure of all the various diseases of the Head, Throat and Chest, including the Eye, ar and Heart. We treat all diseases of the breathing organs by the inhalat on system of practice, which is a knowledged by all physicians and people to be the only system by which these diseases can be cured. In consequence of the fearful mortality at present from throat and ung diseases, we present the following letter on

CHRONIC BRONCHITIS. Bronch tis is an inflammation of the mucous membrane of the bronchial tubes, and is one of Bronch tis is an inflammation of the mucous membrane of the bronchi of tubes, and is one of the most common of the pulmonary affections hronic bronch tis more often occurs later in life. When a cold settles on the sungs, the lisease either enes in bronchitis or pneumonia. If it ends in bronchitis it usually passes off as a old in the chest, and still the putient does not feel entirely well. He feels tired and languid, and is in apable of taking his usual amount of ercise, and experiences a shortless of breath, ith more or less warmth in the palms of his hands. Soon after this a cough appears, accombanied by an expectoration of thick mucus followed by a hectic flush, loss of flesh and strength and hight sweets continue, when the patient essumes all the appearance of having a genuine case of a naumption. But this is simply catarihat the lungs or caronic bronchitis.

In the latter stage of the disease, the mucous nembrane of the larger bronchial tube softers, while in the smaller tubes and air cells of the lungs but merely a wasting away of the larger bron hial tubes, and death takes place from the obstruction of the bronchial tubes and ir cells of the lungs. The patient dies from whaustern and sufficiation, being unable to vectorate the more which accumultes in the passes; leading to the lungs which in some

pectorate the m cus which accumul tes in the passes leading to the lungs, which in some ases is still by and small in quantity, but more commonly copious, of a light straw or yellowish reen. (Itentimes streaks of blood make their pure proce in the mount and at tight. ppearance in the mucus and at times there is a disagreeable smell. Persons thus afficted recy liable to take a cold, at which time the nucus becomes clear and frothy, and it is not nonmouly the case that the patient dies in ne of those attacks.

By this sys em of Medicated Inhalation, thou-ands of cases are cured after all hope of cure is ast. And thousands are to-day living witnesses If poss ble call personally for consultation and xamination, but if imp sable to do so, write for list of questions and Me ical Treatise, Address

M. HILTON WILLIAMS. M.D., 127 Church-st., Toronto, Ont. Mention Dom TON CHURCHMAN.
