A New Sullivan Air Compressor

Simplicity, strength and economy in operation are qualities that should interest you in this new SULLIVAN "WH3" Air Compressor.

The "WH3" is a sturdy little straight-line, two-stage machine. It is mounted on a sub-base, reducing foundation costs. It is belt-driven from either of the two sides. The "WH3" is of the center-crank type and practically automatic, the main working parts being enclosed in a dust-proof housing and

splash-oiled. The air valves are of the radial, automatic pattern.

This machine has a capacity of 307 cu. ft. Ask for specifications, Form 6976.
