Reviews Progress of Rossland Camp and Hazards a Prediction-Alleged Experts Excoriated-To Operate Here.

Ex-Governor Mackintosh returned to Rossland after an extended southern and western trip on Thursday evening. Yesterday a representative of the Miner nad a very interesting interview with him. during which many matters of importance, not only to Rossland but to the province.

were discussed. Asked as to his recent trip he replied. ",dy wife and I visited California chiefly for a holiday; but at the same time 1 had several business interests to look af-ter. We both came to the conclusion that

Victoria and Vancouver ought to satisfy ern, the Nickel Plate and the Columbia any Canadian. As you know, the people Kootenay, can produce hundreds of tons of Canada overflow with hospitality, kindper day, yielding a profit, where a few years ago no such thing could be looked for. Then, take the IronMask, the Evenness and generosity; but at the same time, my impression is that for health imparting fluences, our own country will meet the ing Star, the Giant, with the recent strike requirements of all those who can enjoy on the Homestake, and a score of other mines that could be mentioned; after pracand desire to enjoy life. We also visited Victoria, where at the present time the legislative pot is bubbling over, but as I represent the mandate of an elective minlegislative pot is burbhing over, but as a duries capital, we could attoin other the mandate of an elective min-ority 1 prefer indulging in no comment ority 1 prefer indulging in no comment whatever. Victoria, as you know, is one of the most charming cities in Canada, if the most charming cities in Canada, if whatever. Victoria, as you know. is one had faith in them, the investing public of the most charming cities in Canada, if looked askance. What dowe find? Today not in America, and as for vancouver, the smelters are treating at least 1,200

it is only in the gristle yet; still, I believe tons a day, the ore averages, say \$8 per if its people unite it will be one of the ton. Much of it, being seif-fluxing, is great cities of America. By unity 1 mean the taking of a common sense practical view of the situation as it is. Many in city of Vancouver twenty-five years hence. I think this is a mistake, judging as to what people are accomplishing now com-pared with what occurred thirty years with what occurred thirty years are lock as a second thirty wears are accomplished. Wherago. Posterity is quite able to look after itself anu if my humble opinion carries any weight, I should prefer dealing with the present in all matters appertaining to Boundary country, but in East Kootenay development of the resources of a

of; however, this is a large order and 1 will not go into particulars. At all events I have perfect faith as to Vancouver's fu-to the main lines are built in some Spurs city that every Canadian should be proud "An item appears in the newspapers stating that you had started a sme

near San Francisco. Would you object to mentioning for what particular purpose?" The governor replied: "Not in the absolutely straight business, and when the least, more particularly as a have not sun shines, it will soon aispel cloads which started any smelter. Some time ago, experiments were begun in connection with the cheapening of the process of smelting; as 1 owned a property near Oakland, across the bay from San Francisco, that property having many years ago proved profitable to the proprietors as a smel-ter, I consented to allow a series of experiments to se carried on there. 1 have lways believen, and still believe, that smelting charges could be reduced to a lower price, despite the fact that four or five years ago, smelting cost twice as much as it does now, if not more. 1 believe smelter can be constructed at a reasonable figure, and that various ore districts unable to bear the cost of transportation of their products, will be placed in a position to own and control their own smelters. 1 am not at liberty to menown smelters. I am not at libercy to men-tion all facts, but so tar as the experi-ments conducied at Melrose are concern-ed, they promise to prove successful. If successful, I hope to introduce the process into the province of British Columbia." I really sunk that the time has come when Great Britain, II suc cannot see the successful and successf

nto the province of British Columbia." when Great Britain, it suc cannot see The Miner representative then asked her way to adopt a fiscal policy beneficial Mr. Mackintosh if he was in a position to Canada and Canadian industries should to say whether the Gooderham syndicate encourage her people to go hand in hand ad bought the Trail smelter. with their tellow countrymen on this side He replied: "1 am not; but I think of the Atlantic by investing capital where had bought the Trail smelter.

it of great importance to Rossland, as be- it promises to produce mutually beneficial ing greatly to its advantage, should Mr. results." Gooderham and Mr. Blackstock and those

In the first place, 1 do not believe the The Dregs of Grippe and Poison sight-hour law has been in use is not detrimental to Rossland. 1, and ago, 1 pointed out that interested parties had used that Germs Keeping I housands in Pour Health.

exceed 450,000 tons, and you must remem-ber that fo_r want of capital, only a very few companies are operating in a prac-tical and businesslike way. Then, take the Slocan country, including the whole of the Varteen vertice.

of the Eastern portion a Kootenay, Lar-deau, Nelson and other districts, with

capital and smelting tacilities, the results would be simply astonishing. I believe the Le Roi can ship 1,200 tons daily for

years to come, that the Le Roi No. 2 including the Annie, Josie, Number One and Poorman, the Rossland Great West-

tor the present appear to Lang over cer-tain districts. We have had many Amer-

ican investors; all of them made money, because they were near the work and

watched the progress of development. What we want now is the British in-vestor. We want him to come out from

what he considered the paradise of min-

ing in Australia-and mind you, 1 do not for one moment wish to minimize the

value of Australia mines-we want him

realize the opportunities, to realize that Uanada is a British country, that Cana-

dians are honest, industrious and prac-tical, and realizing, withdraw the hun-dreds of millions of dollars invested in

the United States, transferring some por

The Miner representative then said:

resources of this camp. In 1896 the output of the Rossland mines did not exceed 30,-000 tons. Last year, despite various trou-bles, the output was over 200,000. This

year 1 should not be surprised to see it Purifies the Blood, Kenovates the System, Braces the Nerves and Keeps People in Good

Health.

If the dregs and poisons of Grippe are still lingering in your system, causing weakness, debility, sieepiessness, headache, nervous prostration, rheumatism, herat trouble or blood asseases, ine us of Paine's Celery Compound for two of three weeks will completly banish the poisons of death, purify the life stream brace the weak and unstrung nerves an build up the entire system. Mr. J. Irvine, Heckston, Ont., who was

tical development, which of course, re-quires capital, we could astound other brought near the grave by troubles aris ing from the poisonous Grippe germs, was marvellously restored to health by Paine's Celery Compound after several doctors had failed in the work. Mr. Irvine says:

"After a severe attack of Grippe I was left in a weak and very debilitated con dition. My health was almost wrecked 1 had no strength and felt tired all the smelted at not more than \$2 per ton-I can refer to the Grand Forks smelter-not time. I was so weak that my leg to speak of what it being done at Green- would not support my body, and I have view of the situation as it is that it to speak of what it being doite at offeen would not support my body, and I have that city appear anxious about posterity, wood, and it would not surprise me to often fallen to the ground when trying and even in their municipal matters see 3,000 tons per day being treated at to attend to my work, and would be are anxious to safeguard the interests of the smelters in the Boundary country compelled to lie where I had fallen until those who will conduc the affairs of the within a year or two from now; in fact, I could muster sufficient strength to rise. often fallen to the ground when trying the bare statement of facts would read My appetite was all gone, and when I would try to eat in order to gain strength, I would suffer untold misery ever you go, the people have faith. Stamp mills are being erected, immense

slowly starving to death. "Doctors could not benefit, me by their treatment. My friends thought I was go-ing to die, and I verily believe I would have died had I not nead Paine? Calary as well. The railways, particularly the Canadian Pacific, have been most enterhave died had I not used Paine's Celery Compound. I bought six bottles and received more benefit from it than I had capital looking for dividend paying investday's work as I ever could and can eat any kind of food and sleep as well as ments, will yet be forced to come to Brit-ish Columbia. I am not talking now as when I was a boy. 1 send this testimonan enthusiast, rather as the advocate of ial unsolicited."

Thoroughly Disinfected.

they represent, secure the smelter at "Governor, there is a great deal of talk. Trail. I have always been opposed, from not only in Kosslahd but elsewhere, with a bus ness standpoint, to railways owning regard to the fact that men who have smelters. The cobbier is much more at been interested in mines here, when they home sticking to his last; certainly, as go to London depreciate British Columthe general saying here is, there's no bia."

kick coming to mining men so far as The governor replied: "You are drive the C.P.R. is concerned, in its manage-ment and charges connected with smelt-never have nad any secrets in connection ing. The present manager of the smeiter with mining. I have never withheld anyat Trail, Mr. Alaridge, it is necessary for thing from the public. 1 do not believ me to say, is an up-to-date man; still 1 un it, particularly where investors are in-believe, acting for an independent smelting cerested. It is quite true, I could mention corporation, he would be able to accome the names of men, called experts, and plish even more than he has done in the considered experts, who, after being them-

selves absolute failures in managing properties, have gone to New York and to "May 1 ask," suggested the Miner rep-

London and systematically given what we resentative, "it it is true that you once made an offer for the 'Irail smelter?" term the black eye' to British Columbia mines. I could name men, who, although The governor answered: "I uat is alnos: ancient history, but 1 am more at they came here without a dollar, and left surrounded by wealth and every comfort liberty now than at any other period in the past, to refer to the subject. in be that it ensures, were unmanly candid, my first unpleasantness, if it can apeak of some properties, the Le Roi, for instance, as a mere basin that would soon be termed such, as a director of the Britbe cleaned out. Mind you, these gentleish American Corporation, was in conmen are experts, and the one noticeable nection with this very smelter. 1 had the same faith then that I have new, in the thing is, most of them made dead failures or every mine they ever had the manage Rossiand camp. 1 foresaw a very great ment of. Some, and 1 am speaking well tuture, not only for the Kootenay coun-try, but for the Trail Creek district in particular. Having secured for our corpoation many of the mines in the vicinity ly of it. I have remained with this camp of the Le Roi, and feeling convinced that for two years. 1 am no expert; but 1 the Le Roi was going to prove one of intend to stay long enough to prove that the great mining properties of the world, these so-called experts are mere charles 1 decided that it was best to provide for all tans. 1 could use stronger terms if neces emergencies and in case immense bodies of low graue ore were developd it would proved that they are wrong, and I venture to say that the future will emphatic-ally prove the utter inefficiency and dis-Le necessary to have cheap transportation e'd cheap smelting. Hence I made an enort through Mr. Fitzgerald, Mr. Heinponesty of the pretenders referred to. 'Ine truth is, the camp progressed too rapidiy for their stock of expert phrases." ze's business manager at Trail, to nego

tiste for the Columbia & Western Railway "May 1 ass you, governor," said the Miner representative, whether it is true and the Trail smelter and all the railway subsidies and charters controlled by Mr. that you are forming another company in Heinze. As you know, the railway fran-England:

chises ensured privileges extended throughout the Boundary country. My The governor replied: "I am not at uberty to enter into particulars. All I can design was, after securing possession o say is that a company is being formed, and that organization will be regulated by the this enterprise, to make a contract with the C.P.R. to carry the Rossland ores new British company law and my only to the smelter for a given price per ton for a specified number of years, to keep the Trail smelter and to transfer to the hope is that it will attain success. I do not hesitate to say, it will be very satistactory to me to still further establish C.P.R. or any other corporation, Mr. Heinze's subsidies and charters through my contidence in the mining resources of oritish Columbia. So far, I have not dealt the Boundary country, on such terms as in the shares of any company, other than once or twice in the ordinary course of would vouchsafe cheaper freight rates generally. For nearly one month I urged my ousiness I have had to accept shares, and the British American Corporation to adopt this policy. They did not see their way board of directors of this policy. They did not see their way clear to do this; I regretted it then, I I was allowed to control, that did not regret it now. Probably others do, too, prove proficable to investors.

The Muner representative then asked What is your impression as to the Mr. Mackintosh if he was likely to take mining outlook in Rossland and the Koote-nay country?"

A A

The governor replied: "I have h "Well. uestion uest it. rector, when this company is formed." you keep loading me with large orders? So many elements enter into the question

5

is easily operated, and with the Guide, requires no teacher. If you wish to join our staff of Workers let us hear from you promptly with the Contract, order form, and re mittance, as a guarantee, and we will send machine and outfit to begin work at once.

chine weighs 17 pounds. It is more w derful than a sewing machine, just as durable, and higher speed. OUR METHOD OF DOING BUSINESS

eferences as to our honesty and integrity, we must ask you to do the same, in order that we may know with whom we are dealing.

OUR METHOD OF We wish to secure the services of families to do knitting for us in their homes. Our method is the same as adopted in England. We are the introducers of this plan and the largest knitting concern in Canada. After long experience, we have been able to produce an Automatic Machine by which all kinds of seamless knit-ing is now done by our Family Machine, thereby enabling anyone of ordinary intelligence to quickly learn to do the being made expressly for this purpose, and the operation so simple, it cannot possibly make a mistake in its work. The great demand now is for Hicycle Stockings, Wood-men's Socks, and Motormen's Mittens, and as we are un-able to supply the demand, have taken this method of ad-vertising for more help. The large export trade to the North-west Territories. British Columbia, and the British Colonies, furnishes an un-limited demand for our goods, and, with the combined co-operation of the many families we are amploying, together with the large rents, insurance, interest on capital, etc. mables us to undersell any manufacturers of this class of goods, and wave sale for all the knitting we can have turned out. The price we pay for finished bicycle stockings is \$10.00 you to do the same, in order that we may know with whom we are dealing. We have, in as brief a manner as possible, endeavored to show you what our work is, and we simply say as to the machine, it is just what we represent it to be, and will posi-lively do everything we claim for it, or refund the money. Each machine, securely packed with an outfit, is set up for work, thoroughly tested, and a sock or stocking partially knitted before boxing and shipping. Should you decide to engage with us, it will be necessary to send us Cash Con-tract Order Form, properly signed by you, and at least one good reference, together with the remittance, accordingly, upon receipt of which we will forward machine and outfit ready to commence.

by which we save rents, insurance, interess of this class of emables us to ubdersell any manufacturers of this class of goods, and we have sale for all the knitting we can have turned out. The price we pay for finished bicycle stockings is \$10.00 per hundred, or at the rate of 10c per pair; woodmen's socks. Sc, and motormen's mittens, 12c a pair. All other work in proportion to size. The machine can be operated by any one of a family, and at our prices any energetic family should be able to sistain themselves comfortably, and in time be a source of independent comfort. Our plan is to Send out each machine to beginners with a sock or stocking partially knitted, and remaining in the machine ready to be continued, and also enough yarn to knit one pair of sample socks or stockings and a simple and complete Instruction Guide, showing how the work is to be done. When the samples have been finished and returned to us satisfactory, we send a quantity of yarn. which you knit and return likewise when finished. We prepay charges on all work one way, and our workers pay return charges. The work, as we have stated, is simple and randifu done, the machine having a capacity of ten thou-sand efforhes a minute. We have many persons now in our orocks or stockings a day, and where the time of a family is devoted to the work, you can readily see that \$15.00 or 150.00 rer week can be easily earned. We furnish our workers all the materials, yarn, etc. There, and everything that is necessary for the work. We are furnishing the machines only for the exclusive use of those desirture to take employment with us, who must, in order to become a member, send us this Contract Order Form, properly signed by them, and at least one good refer-from our terms, as we cannot make a distinction with one and not another; besides, we are doing an extensive busi-ness, and must be governed by business principles. The manufactured price of the machine is \$15, end pasi-tively will not be sold to any others than those who will arree to do knitting for

Nearest Express Office is at

amount paid for same, after deducing cost of our ex-pense only. There is a Large Demand by the Trade for this class of work. Our workers can depend upon it year after year, and if you engage with us (whole or spare time) we will keep you supplied with work as long as you do it satisfac-torily for us and return it promptly. We entrust our work-ers with large quantities of valuable yarn, and as we give
