### FOUND A LEAK

Mike O'Mara, of the waterworks department, has located a leak in the water pipe at the Third street bridge. It will be repaired to-day. Many people think that if a pipe breaks in the river, the river water gets in, but this could not be the case when there is a 40 pound pressure forcing the water out of the nines into the river.

pipes into the river.

The leak does not effect anyone and the only difference is that the engineer at the pumping station has to apply more steam in his pumps.
