There has been a very considerable slump in the price of potatoes in the last few days, owing to a tremendous over-loading of the markets both in Canada and the United States. The Observer is told that the last-tenth of the 1923 crop remains in the farmers' hands and the balance of what is not shipped away remains in the hands of the buyers, who are this time the heaviest losers. It is said the ship-ment of the St. John valley have in stock, without buying another barrel, enough potatoes to supply the Cuban market until next season—and then market will be glutted. Hay today at \$10 and oats at 40c. Hens are laying again and the fruit of other industry brings 25c and butter is 35c.

AT THE HARTLAND U. B. CHURCH

We have been accustomed to think that God takes an interest in the personal welfare of His children; that there are mysterious unseen yet real forces working for their good. Have we been falsely instructed in regard to this matter? Has the church been expounding a fairy tale, when it presented this aspect of the spiritual life?

The pastor, Rev. G. F. Bolster, will discuss this subject next Sunday morning at the Baptist church in connection with the subject, "The Alliance of the Faith." In the evening the subject of the sermon will be "Wealth, true and false." Special music will be rendered by the choir.

I wish to thank my friends and neighbors for their many acts of kindness and sympathy expressed during my recent and bereavement. Herbert Boone.
