THE DUNDAS MEETING.

entworth Liberals were not fortun ate in their choice of a day for the eral picnic at Dundas, the rain which prevailed all day rendering the attendance small and an outdoor gathering impossible. The best that could be done gras to hold a meeting indoors, and to those who braved the weather the ches of Hon. Mr. Aylesworth and Mr. A. G. MacKay in the Town Hall were ample repayment for the discom-fort of attendance. Mr. Aylesworth dealt trenchantly with the much-talkedof programme of Mr. Borden, and thor-loughly exposed the hypocrisy of his pur-ity cry, introducing effectively the story of the huge boodle fund to which Mr. Hugh Graham has sworn that he contrib-uted so many thousands money (for what?) in Quebec, and inti-mated that he was "assisting" in the other Provinces. His exposure was a felling one, and his condemnation of Mr. Borden's untree and unusualy insin-uations against Hon. Mr. Fielding won hearty appliance. so many thousands of his own

A. G. MacKay, M. P. P. for North Grey, dealt with the Provincial political situation and showed up the weaknesses of the Whitney Government, its viola-tions of piedges, its domination by the spailsmon, its abuse of patronage, its maste of the money of the people in the fine of a keen hunt for new and increastaxation, and its efforts to shirt bility for his evil doings. His ad dress indicated a thorough knowledge of Provincial affairs and a clear grass of the political principles necessary to good government. Mr. MacKay paid good government. Mr. MacKay paid a ed confidence that he would good" at Ottawa. As to the fu ure of the Ontario Liberal party said: "If the spirit of true eralism is abroad — and , I be Hove it is - then it does not end on one leader or another to car ry the cause on to success. If that spirit prevails we will find a leader, and Believe that when we make our selection we will again be united." And when the es for Liberals to act, we think Me MacKarle words will be justified not only two votes in the selection but will be restored to her old place in the Liberal column at Ottawa.

BLUSH HAMILTON!

Beaders of the reports of the manne in which the Council of this year trans act the business of the city will hardly be inclined to feel pride in the result of at-large system by which it was chosen the attange system by which it was cros-en. Nor does it appear to improve with set, but rather to degenerate. Last night's meeting was but one more illus-tration of its unbusiness-like character, d reckless disregard for decorum ar the efforts of the Mayor to preserve ler. When the presiding officer has to nce of control by the hreat of having aldermen ejected from cause of the condition in which they appear and the manner of avior at the board it is surely ess to expect that the best results ocrue to the city's business.

The net results in accomplishment of etings are that the motion submit the ward by-law is negatived; e electric pumps by-law has been re-cred back, the aldermen confessing that know nothing about the matter are asked to deal with; the Main et by-law has been passed, in the face of a letter of protest against its breach of faith in the paving matter; d a committee was appointed to gath-data looking to a reversion to governneed Council and board of control, as means of removing from the city the proach which the present at-large-electof a letter of protest against its ty. Mayor Stewart announced that ith the City Solicitor he had discussed question with the Ontario Governand its advice was to get back the ward system first, and then such

e granted.

Now that no by-law but that for elecmps is before the Council to go to epayers, it is not improbable that will be laid over till the municil election. The expense will be almost great for one as for the two and the ing, at any rate, if they are to be in has labored and brough forth a very tall mouse indeed. And the men who s turn the Council into a bear garden, r the doings of which the citizens blush, who make a travesty of the transon of the weighty matters falling to beir care, are the finished product of the at-large system, with its evil of clique and party representation. No won nt advised Mayor Stew art to get away from it! No wonder the council abandons hope of making a sucof municipal rule!

BUREAUERATIC METHODS.

arThe Toronto Star thinks it is quite likely that Whitney will look favorably Mon Commissioner Starr's suggestion to turn the entire license business over to turn the entire needs to a commission. It thinks—and not without reason—that Whitney has a strong liking for commissions. But it is crack and count how many lights there not sure that a panacea for political ills are in the chandelier, before being adis to be found in that way. It says "responsible government is always under fire and its weaknesses and dangers are alighly tried, and its weaknesses

wire pulling and intrigue, but there is also the check of responsibility. Burneratic government, whatever its erits may be, is not responsible gov-nment—the responsibility of the vernment which appoints the counission ceases as soon as the appoint-ent is made. Yet there are many ways ment is made. Let there are many any air which a Ministry could influence a commission without adopting the brutally direct methods of Dr. Pyne.

It is probable that Whitney will take

kindly to Mr. Starrs' suggestion. More-over it. But would this shifting of re-Starr's suggestion comes as the con-a hint from Whitney, or from som body in his confidence. If the Premier could in license management ould do his behests yet relieve him of all responsibility in the matter, we may sponsibility be good for the country? Ought not responsibility and power to go together? And should those to whom we entrust power be allowed to evade the responsibility it entails? Why could not an honest Provincial Secretary and two or three of his departmental aids discharge the duties of the license branch as efficiently as any three commissioners? And with everything under the Min ster's eye there would be much less danger of corruption and abuses than under any system by which the administra-tion of the law was further divorced

THE INDIGNANT CONTRIBUTOR

rom responsibility to the people.

Mr. Hugh Graham is pilloried because he contributed twenty-one thousand dollars to the Conservative fund in the Quebec district during the campaign of 1994. This is made a reproach against him on two counts: First, that it shows him to have been then in sympathy with the Conservative party; and, secondly, that the sending of so large (?) a sum into that district must have been intended to finance corruption.

But we are not like the party organs. We are not bought and paid for. We do not have a party brand burned into our hide, so that there is no escape from the wearing of it.—Montreal Star. Holy smoke! And is that the best the

Holy smoke! And is that the best the

tar can do? Better that it had remained silent than ridicule those who refer to Mr. Graham's \$29,380 boodle contribution to Mr. Pelletier's district of Quebee as "large." How much was his total contribution to Borden's boodle-handlers in all the Provinces? He says he passed Borden's warning along to the party in all the other provinces to which he was forwarding "assistance." Oh, no; the Star is not bought! Not it. It was furnishing the boodle, to be handled by trusted ones in the provinces. Did it expect any return? What thinks the reader? Was Mr. Graham scattering so nany thousands in Borden's interest out of mere love for the party or the leader cast on the election waters would return entitled to his opinion. The Star kept num a long time; better for it that it had remained dumb. The pople have got a hint of where the boodle came from.

It thinks the remedy is to buy bread as we buy butter, paying only for what we get.

When the by-law is drafted provision will of course be made that the expenditure of this sum on electric pumps be made conditional upon the city's being able to make a satisfactory contract with the Hydro-Electric Power Commission for a supply of power. If such a contract cannot be made, the city would have to depend upon the Cataract Power Company for power, and in that event it would probably be expedient that the city, instead of installing its own pumping machinery, accept the offer already made by the Cataract Company.—Hamilton Herald.

Brockville, Sept. 10.—A terrible fatality occurred vesterday at the Burgess Mica Mine, near Westport. John Waffle, an employee, aged 25 years, was knocked out of a bucket at the mouth of a shaft and falling to the bottom, a distance of 125 feet, was dashed to instant death. As the bucket in which Waffle was being raised, after completing the day's work, reached the top of the shaft it struck a projecting beam and turned over.

Waffle, being unable to cling to it, and he was hurled to death. When picked up life was extinct. The body was horribly mangled, and nearly every bone broken. Deceased was a son of T. J. Waffle, of Bedford Mills, and very highly esteemed.

ADDRESS FOR HON MR. GRAHAM.

LIBERALS OF HIS OWN TOWN HONOR NEW MINISTER

Many Conservatives Turn Out to Honor Him-Mr. Graham Makes an Able Speech in Reply-Mr. D. Derbyshire and Other Speakers.

Brockville, Sept. 10. - A meeting mique in character took place here today, when an engrossed address was pre-sented to Hon. Geo. P. Graham, Minister

of Railways and Canals, to which he re-plied. It was presided over by ex-Mayor Buell, President of the Liberal Associa-

plied. It was presided over by ex-Mayor suell, President of the Liberal Association, but was not a party meeting, many prominent Conservatives being present to join in the congratulations, among those on the platform being Mr. A. E. Donovan, Mr. eranam's opponent in the last Provincial election.

The Chairman made a brief address, teiling why the meeting was called, after which Mr. D. Derbysnire, ex-M. P., read a beautifully engrossed and neatly worded address to the new Minister.

Mr. Graham replied at length, and, after referring in a characteristic way to his work in the Legislature, as a representative of Brockville and as leader of the Opposition, dealt briefly with his transfer to the Donninon arena. Leaving this, he remarked in a characteristic

transfer to the Dominion arema. Leaving this, he remarked in a characteristic way: This is what has been, but no doubt the people want to know what as to be. I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more it would itch. I tried all kinds of remedies, but could get no relief. A friend of mine told me to try the Cuticura Remedies which I did, and am very glad I tried them, for I was completely cured.
