Hamilton, Oct. 18.—Yesterday morning Mr. Michael Duffy, of East Flamboro', in company with a man named Chas. Galloway, drove to the city on business. On Friday evening, Mr. Duffy returned from a trip from the country, where he had received nearly \$400 by the sale of cattle, which he placed in a book and deposited in his coat pocket. When he went to bed, before leaving home yes-terday morning, he forgot to look if his wife had taken the money and put it away, as she was accustomed to do, and he came to the city, ignorant of the fact that the amount still remained in gary on account of the bad harvest is very great. The Government suspended the collection of taxes until the next harvest is with him, containing over \$350, and after counting it in the presence of some person returned it to his inside coat pocket. the afternoon he and Galloway started for home, Duffy, it is said, having taken some liquor, but net sufficient to make him drunk. They drove as far as Hessey's, Waterdown, where they stopped for a short time, and then continued homeward, halting again at Baker's, about six miles from the last stopping place. Here Gal-loway got out of the buggy, while Duffy who was fast asleep, remained in it. No-thing further transpired until this morn-ing, when Duffy found his book containing the money gone, and he at once set out in search of it and found the empty book with \$10 bill lying near Baker's. Galloway, it appears, drove Duffy as far as his own door last night, and it is not known where he went to afterwards. The money consisted of \$200 in \$20 Bank of Toronto bills and the remainder in \$10 bills of the Standard Bank, Toronto. At present there is

Great Activity in Grain and Lumber PORT HOPE, Oct. 21.—Business has been very brisk here this month, freights having advanced considerably. The Midland railway, though doubling all the trains, have exports of barley from this port so far this month are over 300,000 bushels, while teen million feet of lumber has crossed the lake. On Saturday last, eighteen vessels were reported inward and twenty outward. The harbour officials are called upon to supply all the storage space possible for lumber, and in consequence all those hav-ing coal, iren, unused lumber, etc., lying in the way, are ordered to remove them. So many vessels are in requisition now for the grain trade, that lumber shippers have some difficulty in getting their cargoes forwarded.
