

AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition Which Produces Many Well Known Diseases.

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-TIVES" — The Wonderful Fruit Medicine — will Protect You

Auto-intoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the kidneys and skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes indigestion, loss of appetite and disturbed stomach. It may produce headaches and sleeplessness. It may irritate the kidneys and bring on pain in the back, rheumatism, gout, and rheumatic pains. It is the chief cause of eczema — and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-tives" will always cure auto-intoxication or self-poisoning — as "Fruit-a-tives" acts gently on bowels, kidneys and skin, strengthens the bowels and tones up the nervous system. 50c. a box, 6 for \$2.50, trial size, 25c. LETTER WILL SAVE HEAD TAX

The head tax for men and women passing between the United States and Canada, which has caused much delay and confusion among vacationists, and much bitter feeling and complaint from those who have been obliged to pay \$5 in passing over the border, was explained last night by United States Immigration Commissioner Henry J. Skeffington.

"No man or woman who is a resident or citizen of the United States or Canada, and who wishes to visit either country for a vacation or on a business trip, need pay any tax," said Commissioner Skeffington. "All that is necessary is a letter of identification to be shown to the inspectors." It was also explained that this letter can be obtained from a clerk of any court or from any city or town or State official who knows the one desiring to cross the border.

A letter of identification issued by such officials costs nothing," said Commissioner Skeffington "and with it there will be no trouble with any official or inspector."—Boston Post.

IN MEMORIAM

In memory of Pte. Alexander Peterson, of Upper Blackville, killed in action on June 26th, 1917:

Composed by Albert J. Peterson of Upper Blackville

A tribute to the memory Of one of Canada's young sons Who bravely did his little bit To help to crush the Hun. He heard the mother country call; When King George asked for men, He sailed across the ocean Ne'er to return again.

He fought to save his country, Fought bravely in the fray To save his flag and freedom And his loved ones far away. He fought to save his honor, His liberty and pride, He faced death in the broken line And like a hero died.

When the fight increased in fierceness 'Mid the hail of shot and shell, When the mighty cannon thundered, Our gallant soldier fell; On Europe's greatest battlefield, Away across the sea, He died to save his country And to save us—you and me.

He was a noble soldier, This lad so brave and strong, Who fought for honor's sake And helped to right the wrong. And while he's resting peacefully Our blessings shall we give, He shall be crowned with glory For he died that we might live.

He did a true boy's duty, Through his manly sacrifice, Although his life was dearly bought He paid a heavy price. But in the ages yet to come We'll find his stainless name With many, many others On the honor roll of fame.

Behind the sand bagged parapet, Killed by a murderous dart! Just another life lost, Leaving many a broken heart. In a dug-out in the trenches He took his only chance, Where is our soldier laddie now? Asleep, Somewhere in France.

And this was the message that was sent Of our young and gallant friend, Just these words: Killed in action, But we'll ne'er see him again. He was only a private soldier, Who fell in the battle heart In the field on active service, Where he did his little part.

Away from the cold world's dangers Far from the fields of war, Gone but not forgotten, safe for evermore; Far from the cold wet trenches, In the home of the true and the best Where there's no more care nor sorrow.

In the land of peace and rest!

Baby's Great Danger During Hot Weather

More little ones die during the hot weather than at any other time of the year. Diarrhoea, dysentery, cholera infantum and stomach troubles come without warning, and when a medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid.

Baby's Own Tablets should always be kept in homes where there are young children. An occasional dose of the Tablets will prevent stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will cure the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Summer Beard on a Sunburned Face

is one of the toughest jobs a razor is ever asked to handle. It's a job that needs a

Gillette Safety Razor

YOUR beard grows its fastest in the summer. Your face is more sensitive. The sun burns your skin; the wind cracks it. Perspiration and dust settle around the roots of the beard.

Then it is that the Gillette is most appreciated. Guarded—adjustable—matchless in its keenness—it shaves smooth, as close as you like, and cool. No pulling or irritation—nothing but grateful comfort, especially for the man whose skin is over-tender or whose beard is over-tough.

If you are sticking close to the job this summer, a Gillette shave every morning will make it easier. If you're taking a vacation trip, a Gillette in your grip will be a friend indeed.

Standard Sets, "Buildups" and "Aristocrats" may be had at any hardware, drug or jewelry store for \$5.00—Pocket Editions at \$5 to \$6—Combination Sets at \$6.50 up.

American Red Cross Mission To Russia

American Red Cross Mission on the "Empress of Asia" en route to Russia. Dr. Frank Billings on left.

A DISTINGUISHED party of physicians, surgeons, bacteriologists, professors of food chemistry, sanitation experts and dentists, making up the first unit of the United States Red Cross mission to Russia, numbering twenty-nine in all, left Vancouver the other day on the "Empress of Asia," en route to the eastern front.

Lieut.-Col. Frank Billings, professor of medicine in the University of Chicago, is in charge of the party and is taking to Russia over \$100,000 worth of medical supplies, surgical instruments, dressings, water sterilizers and other necessary articles, including vaccine for the prevention of typhoid, smallpox, cholera, diphtheria, bubonic plague, meningitis and other diseases. A heavy task lies before them in Russia, and they are going abundantly prepared to go immediately to work.

The mission is being sent out by the United States Government, and the United States Red Cross Society will see that they are kept fully supplied in order to meet all demands for alleviating the suffering among the Russian soldiers and people. The move has been gratefully welcomed by the present Russian Government as an expression of the friendship of the people of the United States for Russia.

During the past month the United States Red Cross has raised over \$125,000, and while the work has been already begun in France, Italy, Serbia and Belgium, the present is but the first of similar units to be sent to Russia. The present party will investigate and report on Russia's needs and upon this report the United States Red Cross headquarters will decide the equipment and numbers of subsequent units. Steps are now being taken to get together complete equipment, even to motor ambulances.

Col. Billings and the other members of the mission are a sturdy and affable lot of men and are fitted out in uniforms very similar to those worn by the British. The colonel is exceedingly proud of his organization and the promptitude with which it was effected.

"Every man who was approached to go on this mission, Winlow of Yale and Whipple of Harvard, and all the others, at once offered their services," said Col. Billings. "They dropped their work right there and got ready in four days, leaving their families behind them, to undertake this work, which is going to be of tremendous importance to the nation and to the military war, men are leaders in their field and are the heads of the

Make Yourself Strong

People with strong constitutions escape most of the minor ills that make life miserable for others. Don't you envy the friend who does not know what a headache is, whose digestion is perfect, and who sleeps soundly at night? How far do you come from this description? Have you ever made an earnest effort to strengthen your constitution, to build up your system to ward off discomfort and disease? Unless you have an organic disease it is generally possible to so improve your physical condition that perfect health will be yours.

The first thing to be done is to build up your blood as poor blood is the source of physical weakness. To build up the blood Dr. Williams' Pink Pills is just the medicine you need.

Every dose helps to make new blood which reaches every nerve and every part of the body, bringing color to the cheeks, brightness to the eyes, a steadiness to the hands, a good appetite and splendid energy. Thousands throughout the country whose condition once made them despair, owe their present good health to this medicine. If you are one of the weak and ailing give Dr. Williams' Pink Pills a fair trial and note the daily gain in new health and abounding vitality.

You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SECOND SON KILLED IN ACTION

YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of Freese's." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new ether compound applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while freese is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection by picking at his corns with his claws, but clip this out and make him try it.
