### Land Inspector Gains 20 Pounds

Every Joint And Muscle Ached Before He Took Tanlac – Spry as Boy Now

"Well, sir, you can believe it or not, but I have gained twenty pounds in the past six weeks," said R. D. Hales, Land Inspector, 312 Silver St., Sturgeon's Creek, Manitoba, in a conversation with a Tanlac representative a few days ago.

tative a few days ago.

"For years and years before I commenced taking Taniac I had been in bad health and hardly saw a day that was free from pain and suffering," continued Mr. Hales. "My stomach was all out of order and what I ate would sour and settle into a lump in my chest and burn like a ball of fire. I had lumbago of the worst sort and if I stooped over and tried to straighten up again, the pains were so severe I just seemed to be wrenching every muscle in my

my arms, legs and feet and every joint in my body ached. My feet would swell so that I could hardly get my shoes on and my legs pained me until it was all I could do to walk My joints would swell so that I could hardly get my shoes on and my legs pained me until it was all I could do to walk. My joints would stiffen and hurt so bad it was agony if Ptried to bend my arms and legs, I was subject to awful headache spells, I lost weight and strongth and, in fact, I was in misery all day long. I hardly knew what a night's rest was for I would lie wide awake for hours with every joint and muscle aching no matter what position I lay in.

"Several of my friends had recom mended Tanlac to me so highly that commenced taking it and I could just feel my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell up and my joints don't stiffen any more. The lumbago has disap-peared entirely and I am so active that I feel as spry as a boy. The headaches have also left me and when I go to bed I sleep like a log till time to get up. My lost weight and strength have come back to me and I am feeling better in every way than I have in many years. All praise is due to Tanlac and as long as I live I can never say too much for such a romarkable medicine." Tanlac is sold in Newcastle by

## This is Better Than Laxatives

One NR Tablet Each Night For A Week
Will Correct Your Constination and
Make Constant Dosing Unneceseary. Try It.

Poor digestion and assimilation mean a poorly nourished body and low vitality. Foor elimination means clogged bowels, fermentation, putrifaction and the formation of poisonous gases which are absorbed by the blood and carried through the body. The result is weakness, headaches, dizniness, coated tongue, inactive liver, billous attacks, loss of energy, nervousness, poor appetite, improverished blood, sallow complexion, pimples, skin disease, and often times serious illness.

blood, sallow complexion, pimples, skin disease, and often times serious liness.
Ordinary laxatives, purges and centartics—salts, oils, calomel and the like—xasy relieve for a few hours, but red., lasting benefit can only come through use of medicine—that tones up and strengthens the digestive as well as the eliminative organs.

Get a 250 box of Natures Remedy (NR Tablets) and take one tablet each night for a week! Relief will follow the very first dose, but a few days will elapse before you feet and realize the fullest benefit. When you get straightened out and feel just right again you need not take medicine every day—an occasional NR Tablet will then keep your system in good condition and you will always fee your best. Remember, keeping well is assiste and cheaper than getting well.

Nature's Remendy (NR Tablets) are saide and cheaper than getting well.

### Wage Schedule Is Being Sought

On the busy North Shore, as a result of organisation, a new wage schedule is being sought by the milimen. The companies which are incressed are Shives Lumber Co., Ricards Mfg. Co., W. H. Miller and o., Fraser Lumber Co., Dalho sie Lumber Co., the Restigouche Boom o., and A. Barberie. Band or rotary sawyers with rigger are asking \$8 a day, band and rotary sawyers \$6.00; band saw filer, without helper; \$14.00 gang sawyer \$6.00 round saw filers \$6.50; lath sawyers \$5.00; handymen, such as millright helpers, assistan oremen, pop sawyers and helpers \$5.00, blacksmiths \$7.00; mill engi-\$7.00, deal workers, \$5.00; gen

eral labor \$4.00
Among the conditions set forth is that nine hours constitute a day: work, overtime to be paid for at the rate of time and a half with double time for Sundays and various holidays. Daylight saving time is tabooed

# Extension Of Time For Filing Tax Papers

Orders have been sent out from he finance department extending the ime for filing income tax returns for the whole dominion to May 31st. R. W. Breadner, commissioner of exaction told your correspondent to-night that this action had been taken account of the fact that persons table to the tax are absent for om the country and because greater time is seeded to secure returns from Great Britain, Holland and other European countries. It was imposs overseas and branch offices in Can ada to file returns by today, and therefore the extension of time has een granted. All the data required to fill out the papers could not be ob tained on this side of the ocean Many insurance, mortage and finan cial companies were in this situation The act gave the minister power to extend the time if found necessary but if the returns are not in by May 11 Mr. Breadner says that the penal ies will be rigidly enforced:

#### A Story About The Retreat From Mons

Sir Philip Gibbs tells a story in Realities of War" about Sir John French and Sir Nevil Macready which present circumstances is doubly nteresting. The ....t from Mons described in the press as masterly and orderly, we at times a little hur ried. Sir Nev Macready, as Adju tant-General to Sir John French, oc cupied a chater i near to that of the Commander in hief, while the G. H. Q. were scattered about in private ouses. One night the Adjutant General and Colonel Childs were writing in their room, when the Colon, impressed by the unusual quiet outside, thought he would step over to Sir John French's quarters. He returned shertly and interrupted Sir Nevil's work quite abruptly with: have gone. We've been left behind. "Forgotten?" answered General
Maccready. "The dirty dogs!" Sir
Nevil, Colonel Childs, the Judge
Advocate-General and an orderly of two had just time to scramble into a tor, and in their race after the (s. H. Q. were snips-1 all the way. "Ald Weight they sore to see me age in They thought they had lost me for Will he tell it after dinner at the

(The point of the last sentence is that Lord French is now Viceroy of Ireland and General Macready is in command of the forces in that

# Hon. Dr. Roberts Likely To Have Stiff Opponent

St John, N. B. May 2—Dr. Roberts, Minister of Public Health, having recently accepted a paid office under the Crown, must now enter litto a contest for his seat in the House of Assembly. There was a feeling that the Conservatives might not oppose Dr. Roberts, but recent events have dispelied that belief. It is now announced that a strong candidate is to be put forth by the Opposition party. It is understood that Colonel McLaren, is the man upon whom Conservative's eyes are focused. The Government has not yet set the date for the hye-election but it is thought they will soon do so.

PROVINCIAL PUBLIC WORKS.

Plans and specifications of the various improvements embodied in the provincial public works programme for this year, are on display in the governments on the St. John-Westfield road, the Nelson-Chatham road; this Pennield highway; the Meductic-Woodstock road; the North of Dover road and the proposed Power Creek Month bridge.

## Overland Has - Real Sensation

Interest is Attached to Beautiful New Light Overland Four

Distinctive in body lines and of unusual quality in mechanical achievement, the new Ovorland Four models if the Willys-Overland Company are a feature of the automobile show.

The new Overland Four marks the

The new Overland Four marks the greatest advance in years in light car construction. The models displayed are attracting unusual attention because of new engineering ideas which provide high priced car comforts at small operating and maintenance costs.

maintenance costs.

Salesmen in charge of the WillysOverland booth in the automobile
show are beseiged constantly with
questions concerning three-point suspension tripler springs which gives
the Overland Four models a cushion
between road shocks and the car
body, providing a riding comfort
hitherto unknown in light cars.

This particular improvement, an exclusive Overland Four feature, is regarded as the most notable achieve ment of automobile engineers in years. Some have termed it the greatest improvement in motor car comfort since pneumatic tires.

The interest manifested in the Over

The interest manifested in the Overland Four touring models is emphasized with earnest "and of ad miration over the Sedan models. The Sedans are finished in Copenhagen blue; the body lines are beautiful. The Sedan models are making especial appeal to women.

Overland Four not only satisfies the demand for a light, economical comfortable car, easy to handle in traffic, but it is in every particular a quality car. Light weight and reliability could not be combined with out the best of materials.

out the best of materials.

The triplex springs, for example are of chrome vanadium steel. The front axie, steering gears and arm the steering knuckles and knuckle arms, propellor shaft, axie shaft ransmission gears, alxe drive, gean and pinion, whitch shaft, valve tappets and all important keys and bolts are of alloy steel.

The frame of the car is of heavy 3-16 inch steel pressed into channel, form 3½ inches deep and 1½ inches wide. The body of the car is of neavy pressed steel. The fenders also are of heavy pressed steel. It is only because of this all steel body hat the Willys-Overland Company s able to give it that high gloss, permanent finish.

Quality in Overland Four goes further than materials. It applies to design which has given that perfect balance that means years of life to the car and economy of operation and upkeep.

upkeep.

#### Farmers Making Money On Lath And Pulp Wood

Practically every New Brunswick farmer, owning timber land within hauling distance of a navigable river, is taking advantage of the present high price of spruce, fir and poplar and hauling as much as he can spare lown the river's edge. Last year buyers paid \$16 a thousand for selected logs; this year the price is \$23 a housand, on the river banks, and and there is barely enough offering to meet the demand.

'o meet the demand.

Many of the woodland owners are not content with these returns, however, and have installed individual ath machines on their farms and with the American price for laths up to \$16 a thousand, it is expected that they will get good returns for their work.

Dealers point out that the United States lath market is high now and may break at any time, but it is not thought by those on the inside that the price will go below a cent a lath his summer. The local pre-war price of laths was ninety cents a thousand There is a strong boom in pulp wood, also, and it is said that fare.

There is a strong boom in pulp wood, also, and it is said that farming in striking distance of the rivers have made an average out of fifty cords each and are getting \$14 a cord, loaded on cars. The early spring price for pulp was \$12 a cord and there is no prospect of the market suffering a bear movement. Last year the price averaged between \$9 and \$9.50 a cord. So steady is the demand at present that many contractors, especially those who are ucting as agents for firms across the border are offering a bonus, or a share in their commissions, to the lumbermen.

PULP WORKERS GET MORE PAY

A committee of the Local international Brotherbood of Pulp & Sulphate workers with Mr. Labelle, organizer, met in conference with W. G. Stevens, manager of the Dornical Pulp Co., Ltd. on Saturday last and drew up a schedule of wages and conditions. This mill, which has been operating with two shifts, turned over to three tours of eight hours each and commenced operations under the new arrangements.

The tour workers got an increase in wages of twenty per cent, while all other labor received an increase of thirty per cent, has active work the nine hour day as formerly.
