the least he can do is to put a collar on him. But we must protest against such an outrage as the hiring of Andy Brown to capture dogs and bring them to the slaughter, for which he receives five cents a head. Such a young wretch would think mothing of atealing the collar off a dog, for the sake of the five cents, and it is discreditable that he should be employed in this way, or partronised or encouraged in his vagrancy.

We have received through the kind-ness of Montague Aldous, Esq., formerly of Charlottetown, a map of Manitoba and the North-West Territory, issued by the Hudson's Bay Company, giving the topography of the country as shown by all the 'stest surveys. It a'so contains all the latest surveys. It also contain very full and, we have no doubt, accu rate information regarding the new country, its climate, its soil and its products in grain, oats and minerals, as well as the testimony of settlers respect-ing the same. We observe that the sur-vey bears the verification of Mr. Aldous

sionally during the past week and did good work on Queen Street. But why Queen Street only? There are other Queen Street only? There are other very important streets in our city which we think should receive a visit; Pow-nal Street for instance. It is not right that a service for which the whole of our citizens are taxed should be confined to a favored spot. The irregularity of the watering cart is also a subject of comment. Last Sunday was a beautiful day and many persons were on the streets going to and from places of worship, yet, as the wind was high, the dust was intolerable and the good clothes of our citizens suffered accordingly. Monday noon it blew a gale, yet because the watering cart had not been out, it was scarcely possible to see across the street. Let us have ring cart and more regularity.

Excursion & Tea.

Tuesday, 7th July, prox.

. For beauty and picturesque ecenery the Cape stands unrivalled in the Lower Provinces, and is famous as the point at which the Iceboats have landed point at twinch the leoboats have landed mails and passengers from the main-land for more than thirty winters. The Capes disaster of the past winter, has centred public interest in this locality, and this interest has been further increased by the proposed scheme of an Island Senator to construct a subway or tunnel from this point across the Straits of Morthumberland. This being the first Excursion on the new branch, the fares have been made exceedingly low, and include the Tea on the grounds. A programme of sports and amusements, many of them novel, together with the Excursion rates, will be published next week. The proceeds of the Excursion and Tea will be applied to the discharge of the church debt.
