are been duly returned, was referred to the Committee on Elections. The Committee has just reported that the many-wived Cannon was properly returned from Utah, and as to the question of his fitness to hold the sast, it recommended that the House investigate whether the gentleman was a polygamist, and if so, whether he is eligible to sit in Congress. The House does not appear to have evinced any special eagerness to look into the merits of the case, quietly receiving the report and letting it lie over for future discussion.—Brockville Recorder.

\*\*Reciprocity.\*\*

Washington, May 13.—There seems some prospect that the negotiations now going on with a view to a new treaty of commercial reciprocity with the Dominion of Canada may terminate successfully. The Secretary of State conducts the negotiations on behalf of our Government, and Sir Edward Thornton and the Hon. George Brown, Senator of the Dominion of Canada, act as joint plenistenion of Canada, act as joint plenistenion of Canada, act as joint plenistood that a rough outline of the new treaty is now the subject of investitiation and discussion. The Canadians asy they have no need to sak favoura from anybody, and do not want any now, but if the United States think it to their interest to merge the fishery question and all other troublesome questions in a comprehensive treaty, they will oversilly largree to any equitable settlement calculated to place the commercial reciprocy of the conditions of the two countries on a friendly, unfettered, and mutually advantageous basis.

Tug Explosion.

Sarnia, May 14.—The tug Tawas was blown up in Lake Huror, to-day, optically advantageous basis.
