A door with this device shuts out cold
draughts, noise and odors, and is oper-
ated silently.

Doors so equipped can't be slammed or
left open, the action is quick, firm and
noiseless.

A door check is now a necessity rather
than a luxury on most outside and many
inside doors; its field of usefulness is
constantly increasing.

The only successful door checks are
those of the liquid type, and the Blount,
since its introduction more than ten
years ago, has been universally recogniz-
ed as the leading and best Liquid Door
Check on the market. It is made in six
different sizes and many finishes to meet
all requirements.
