

UNCLE BEN SAYS:
"In Central Africa, they turn the back on a superior, I told my wife about it when she turned her back on me, and it ended in an argument whether I thought she was an African, which I didn't and ain't that just like a woman."

Health Tonsils Help the Voice

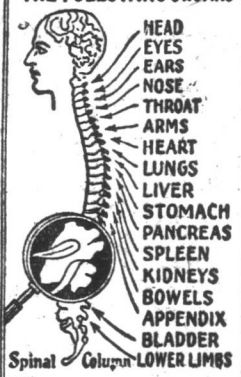

(Monday—Health Talk No. 8.)
(By Wm. H. MacPherson, D.C., Ph.C.)
Healthful tonsils help to give resonance and tone to both the singing and the speaking voice. There is nothing in life more pleasing than the human voice when it is of good quality and strength. It is a big asset to the man or woman in any walk of life. Voice impairment is the usual result of the too popular tonsils operation, an operation which is seldom or never necessary where chiropractic is given a fair opportunity to show what it can do.
When tonsils are diseased and weak it is due to pressure of spinal bones on spinal nerves at the spinal nerve exit between spinal joints. The chiropractor readily detects the nature of the disordered spinal alignment and by adjustments of just the right force and direction restores correct position. This frees the spinal nerves. Diseased tonsils become healthful when this pressure on spinal nerves is removed.

School Doctors Said to Operate.

"Miss Eva Kimble while attending school was examined by a committee of physicians and told that she had enlarged tonsils and would have to be operated upon. She tried what chiropractic would do, and in three weeks was pronounced well, and has had no trouble since." Chiropractic Research Bureau case report, Statement No. 1344C.

YOUR APPOINTMENT FOR HEALTH can be made to-day.
DR. W. H. MACPHERSON.

HEALTH FOLLOWS CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

HEAD
EYES
EARS
NOSE
THROAT
ARMS
HEART
LUNGS
LIVER
STOMACH
PANCREAS
SPLEEN
KIDNEYS
BOWELS
APPENDIX
BLADDER
LOWER LIMBS
THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING REMOVES THE PRESSURE. THE UPPER NERVE IS FREE AS NATURE INTENDS.

As the North Sees It.

(Tilligate Sun).
THE REAL DUTY.
The Advocate at last enters into the question of taxation, and but for the Telegram giving a true itemized account, one would apt to be led into delirium tremens or horrors, after trying to figure out the account as the Advocate gives it, in regard to duty on the necessities of life. On sugar that paper gives no figures only in a vague manner, and thinks that by belittling the tariff the people who read will hardly think we are heavily taxed.

On salt the duty paid is 14 cents per ton, while it used to be on the free list. Coal also used to be free, but is now 56c. per ton owing to the 5 per cent. sales tax. Pork formerly was \$1.50, now \$3.50, more than double. Beef \$1.00 per barrel, when formerly it was \$1.00. On tea at an average of 24 cents per pound the duty is 8 1/2 cents. Molasses is 10c. per gallon duty, which was formerly 5 cents per gallon. Kerosene in steel barrels is 5 1/2 cents per gallon duty. On flour, which for some years was free, until the tariff of 1914 put it up to 25 cents per barrel, the present duty is roughly 68 cents. Limes and twines, formerly free, every pack costing \$1.50 pays 7 1/2 cents duty, and 10 on in proportion to greater cost price. Rope is taxed 3 1/2 cents per pound, the regular tariff rate is 1 1/2 cents, but sur, super and sales tax have brought the duty over double. Raisins and currents, when not imported from Greece, are taxed at 4 1/2 cents per pound. Peas may be rated at 70 cents per barrel. Beans 1 1/2 cts. per pound duty and was formerly half cent, until acting Minister of Finance Squires added 10% sur tax, the 25 super and 5 p.c. sales tax. Rice is 1c. per pound duty, but formerly it was one quarter cent per pound. On far the duty works out at 9 cents per gallon. Pitch pays 44 cents duty on every dollar worth imported. Oakum is listed in the tariff at 1 cent per pound. It is nearer 2 cents when extra taxes are added.

Trying to prove as the Advocate does that the average duty is 33%, is only trying to cover up the real truth, and when comparing the importation and earnings of our people with the difference of real duty—sixty-five cents on every dollar—showing that 33% is not taxed is only hoodwinking an oppressed people. Why are the fishermen crying out and demanding reduction if the

Munn Memorial Hospital.

FINANCIAL POSITION PLACED BEFORE PUBLIC.
(Harbor Grace Standard, Nov. 10.)
A meeting of townspeople was held in the Town Hall on Wednesday night by the Munn Memorial Hospital Committee in order that the financial position of the Committee and other details could be laid before those of the public interested in the proposition. The attendance was a small one. The financial report was read and showed that in all some \$200 had been received from the garden party, hire of ground and one donation. The expenditure was made up of repairs, insurance on property from August, 1919, and freight on the beds donated by Sir Thomas Roddick, Montreal. The balance on hand was about \$60. The statement was made that \$3000 were needed annually to staff the Hospital and until that sum was in sight, the committee could not undertake any active work. About \$1300 will be available when the Hospital is an assured going concern. This amount is the combined money that was raised at the John Guv Celebration and by the Women's Committee. The meeting decided to hold a drive to secure funds in the town. It is also decided that the Ladies' Committee of the Garden Party held in the summer would become the nucleus of a Women's Auxiliary. The meeting cleared up certain misunderstandings and other points and will help the committee and people in solving the question of whether the Hospital is to be or not. The opinion is that the drive should tell if the project is to become a live thing or if it will have to be dropped. An amount should be set and in the endeavour to reach that sum it will be apparent whether the general public are behind the movement or not. If they are, then the Hospital will become an accomplished fact, if they are not, then it falls to the ground and the property will have to be passed over to the Munn family.

Open Air Golf School.

POPULAR IN LONDON.
LONDON.—Just off the busy shopping center of Kensington in the spacious grounds of the Holland House, retired Admirals and Generals, government officials, American visitors, actresses, clergymen and just ordinary citizens meet on common ground. The place is an up-to-date school of golf. A company, recently formed, has acquired the property and made it into an "all weather" practice course with greens, bunkers, and a series of nets which measure the length of the drive. Cumberland turf has been provided for a perfect putting lawn and four professionals are kept busy all the time with their variegated assortment of pupils. The golf school has proved a popular institution and there is a steady stream of pupils from dawn until sundown. It is even planned to install high powered electric lights in order to allow the city men to play after dark. More than 2400 golf balls are used daily, and so great is the demand for the use of the grounds that the instructors' time is booked for many days in advance. Further extensions of the schools facilities are contemplated.

Excitement of Rum-Running Attracts Norwegians

CHRISTIANIA.—Illicit dealing in liquor in prohibition Norway has proved such a profitable trade that it is estimated twenty per cent. of the population is actively engaged in rum smuggling. The excitement and adventure involved appeal to many people, and are by no means a small factor in causing them to enter the business. The competition in the trade at sea is so great that ninety-six per cent. alcohol from Germany is bought at thirty cents a quart on the boats and sold ashore for two dollars. The greater portion of this stuff is rank and contains a large percentage of wood alcohol and other poisonous ingredients. Once ashore this liquor finds a ready market at many times its value, and it is sold under the eyes of the government in all of the cities and towns of the restricted districts. The press of Norway agrees that the situation is little short of a public scandal, but it is not able to offer any suggestions as to how the revenue department should cope with the law violators. Meanwhile the government is losing millions of crowns, as the liquor brings no revenue into the state treasury.

Don't fail to come to the T.A. Hall on next Tuesday night, big Card Party and Dance will be held by the T.A. Ladies' Auxiliary. Tickets 50c. Bennett or orchestra in attendance.—nov. 8.

A New and Better Ironing Board

THE Rid-Jid Ironing Board is as steady as a bridge—it will not wobble, sway, bend nor creep when you iron. You can sit on the end and it will not even tilt. No more propping an old board up on two chairs, backs and having to lift it each time you wish to iron a skirt or petticoat. The Rid-Jid stands firmly on its own foundation, and is so constructed that a full-length skirt may be slipped on over the end.

In spite of its marvelous rigidity, the Rid-Jid is lighter than any other folding board made, and is as compactly as a pocket knife. We would be glad to have you stop in and see it.

Lion to be Scrapped.

BUT RELICS MAY BE KEPT FOR THE PUBLIC.
The Admiralty announce that the Washington Treaty names the battleship Lion as a big ship which must be immediately scrapped.

While they are, therefore, unable to fall in with a suggestion that the Lion should be preserved as a national memorial of the Navy's past in the war, they are considering the question of preserving some relics from the ship for public exhibition.

The Lion was the flagship of Admiral Beatty (now Lord Beatty) led the British fleet in the three great actions in the North Sea—Heligoland, Dogger Bank, and Jutland.

FINED FOR SMUGGLING.—A message has been received by the Deputy Minister of Customs from Inspector Dee stating that on Saturday a resident of St. John's was fined \$50 for a breach of 308 of the Customs Act, and that goods to the value of \$250 were confiscated.
