"The Prince of Wales. Sheehan's Lane, Newfoundland,"

and is marked by a postal official in one corner "try P.E.O." This do speak well for the intelligence of our postal officials being that they did realize that the address should have been "Prince of Wales Rink." Soluti That it offers to Newfoundland opportunities equally as valuable must be obvious to everyone, and we have the additional advantage of being more favourably situated to supply the demand. The chief difficulty is in shipping facilities, but the fact that in recent years we have been sending across the Atlantic a considerable quantity of fresh salmon indicates that the development of a fresh fish industry on a larger scale is a practical proposition.

Next summer Newfoundland will again be represented at Wembley, and we should avail

# How Chrysler Sweeps **All Tradition Aside**

No one need fear that he will not be rewarded who gives to the world something distinctively superior to that which has preceded it. And nowhere is recognition so swift and reward so munificent as in America. Chrysler Six came into a seemingly crowded motor car

market and almost immediately swept its way into unpreedented acceptance as a uality product. That which inarily takes years to

achieve was won almost over-night. Why? Because the Chrysler brushed aside outworn traditions in engineering, in design, and in performance, and gave to the world advantages it could instantly see and feel and experience. It

squarely confronted problems of height and weight and size, solving them according to the crying needs of the moment rather than the needs of five years ago. It brought bear both scientific exactness and artistry—endeavoring to embody in the new car elements of grace and elegance no one else had attained. That is why the Chrysler has taken the country by storm-why it still stands and will long stand alonewhy if you want what the Chrysler gives, the Chrysler alone can satisfy you.
