of directors of the Union t before returning East.

Strange Sights May Be Seen. While the city is short of ready cash, as no one denies, some strange things are taking place in city departments where day labor is employed. A citizen cailed attention yesterday to a flagrant case in the construction of the large sewer on Tenth avenue to the Sunnyside district. During the course of the morning, the attention of a number of citizens was called to the the job, but three of them were a become that one of them pulled out a watch and timed the loafers. It wa just ten minutes before they resume?

who discussed this incident pointed out the flagrant abuses in the parks department, which are the talk of the The investigating commit-Parks changes in the department which as yet have been given no heed.

He Is Some Expert-Aber Nichty "I notice the investigating committee admitted Mr. Iwerson was a good tech nical man," said the citizen referred to, "but if that is the case, it would be ertheless, they will be interesting to have the technical ex-ched for power every planation for the maneuvers that have six o'clock until the been in progress in Control the ground all levelled and raked over. work and had long ditches dug through work and had long thenes dug through it. Then he filled the ditches up and the ground was all carrfully levelled over again, the work just being com-pleted recently. Now I see that they are again digging the ditches. Of course, I realize that the occupation

furnishes needed employment for some of Mr. Iwerson's park empleyes, but I didn't know that the city parks depart-ment had degenerated into an bandstand which has been erected in anything. For a long time the chief Central park alone should cause the has been working on a report, that he
