DRESS GOODS, MILLINERY

In reviewing the year just passed, we desire to thank our many friends and patrons, who have been such good customers of this store. We look back with delight on the many pleasant transactions over our counters and on the many pleasant relations formed during the past twelve months. And in looking forward to the year just entered, we hope for a continuance of the same tone in our business. We shall endeavor to do our part toward making our store the popular trading place, by giving you more efficient service, more courteous treatment, and the best possible value in good reliable goods.

MEN'S FUR COATS

To-day, in this country, men who drive a great deal of a very little need a Fur Coat. If you have to buy one, it is to your interest to SECURE THE BEST YOU CAN FOR THE money. It is to our interest to SELL YOU THE BEST we can, for a poor garment is a poor advertisement.

We would draw your attention to the "Look" Fur Coats. They are Canadian-made and though a trifle heavy have wonderful wearing qualities, due partly to their weight. The guarantee appearing herewith is attached to each Coat, sewn on so that you will not forget it. The prices are right and we will be pleased to have you compare them with any other makes.

We also keep the standard make of Galloway and Russian Calf Coats, and if you do not want a Fur we are showing a magnificent range of Cloth Overcoats.

The tunnel will also be electrically lighted.

The congregation of St. Paul's Presbyterian church, Oil Springs, tendered a farewell supper to their pastor, the Rev. Wm. J. Jamieson, and family, on the eve of their departure for the island of Trinidad, where he has been appointed to labor among the coolies. A purse of money was presented to the rev. gentleman, and a purse of money and a life membership in the W. F. M. S. to Mrs. Jamieson.

A tragic suicide occurred at Winnipeg, when Robert G. McCosh, son of Rev. R. McCosh, of Chatham, paying tacked in the Canadian Bank of Commerce, shot himself through the brain. The act was prompted by despondency, resulting from the fact that he had received notice from the bank of his dismissal, on account of having been married clandestinely recently, when his salary was not sufficient, according to the rule of the bank, for him to marry. His affairs at the bank were in perfect order.

Right Hon. Joseph Chamberlain was howled down at Derby when he spoke of the colonies as a solution of the unemployed. What strange people the unemployed are. They appear to expect work can be furnished to them when there is no work to do. When a princess proffers food they leer, and when charity is offered they cry "Curse your charity; we want work, not alms." They can find fault and grumble and behave like hoodlums, but can propose no remedy for existing hardships.

Another Milestone Passed.

Anniversary services were held in the Methodist church, Glencoe, on Sunday and Monday, Jan. 7th and 8th. The Sunday services were conducted by the pastor, Rev. Mr. Ford, who preached two very eloquent sermons to large congregations. The music also was a special feature of the day. The choir was ably assisted by Miss Smart and Mr. Greenlaw. At the morning service Mr. Greenlaw sang "Rock of Ages," and in the evening "God Be Merciful" and "A Clean Heart," which were listened to with rapt attention by all.

On Monday evening the annual tea was given in the basement, after which a choice programme was given in the auditorium. Mr. Albert Greenlaw, of Sarnia, was the chief attraction as was manifested by the way he was received by the large gathering, as he had to respond to an encore after each number. His deep, rich voice was heard to best advantage in the rendering of "King of the Forest Am I," and again in the sweet, low melody, "Sleep, Little Baby of Mine." Mr. Greenlaw will always be assured of an appreciative audience in Glencoe in the future. Able addresses were delivered by Rev. Mr. Dymond and Rev. Mr. Vein, of Glencoe, and Rev. C. Cornelle, of Wetaskiwin, Alta. The readings of Miss Bessie Shaw were also much appreciated. Much credit is due Miss Helen Hurst, organist of the church, who acted so ably as accompanist during the evening to the satisfaction of all.

A very pleasing feature in connection with the anniversary was the securing by subscription of enough funds to relieve the entire debt of the church. The congregation are to be congratulated on their success in so doing. Proceeds of Monday evening's tea, \$80.

To Improve Middlesex Roads.

The Advertiser says:—The special good roads committee of the county council concluded its work last week, when it was decided to ask the council to appropriate \$9,000 for the purpose of improving the country roads. This sum will be increased by a grant of one-third, or \$3,000, from the Ontario Government.

The most important suggestion of the committee was to the effect that while the county will raise the money, the townships will spend it. Each township will be appportioned a certain sum with which to inaugurate a good roads campaign. It is expected that the sum appropriated will be increased.

The appropriation will cover over 200 miles of county roads, and the sum will allow about \$45 a mile. This will make a good start toward the improvement of the highways of the county.

Sent for Trial.

County Police Magistrate Frank Hunt held court at Dutton last week and heard two of the charges against Edward Hall, the Indian, on the charge of stealing hay from John Kindee, of Dunwich. Hall was found guilty and sentenced to be confined in the county jail for a period of one month.

For committing assault upon Constable Cady at the time of the arrest, Hall was committed for trial, the magistrate not having jurisdiction to dispose of the case, the alleged offence being committed in Middlesex.

The hearing of the charge of stealing harness from C. H. Lucas, of Ekfrid, was adjourned for a week, as was also the hearing of the charge of receiving stolen goods laid against Joseph Hall, the father of Edward Hall.

Five Eclipses This Year.

In 1906 there will be five eclipses, three of the sun and two of the moon. The ones visible here will be a total eclipse of the moon, Feb. 9, visible to the north-west corner of the United States, the western half of the Dominion of Canada, Alaska, and the Arctic regions, but not on the Atlantic coast.

Bad Little Indians.

The other day some four or five little "Injuns" of the Chippewa tribe on the Muncey Reserve organized a modern "James gang" and started on a rumsp. They visited Mrs. Rebecca Monture's house, near Middlemiss village, and it is said broke open the house and ransacked the little wigwam, and found, it is said, money to the amount of \$5. Then they went into the preserve jars and had a royal up-to-date picnic at the expense of Mrs. Monture, and then they threw the bed clothes all over the house and soaked the bed, etc., after which they scampered home. The other day Mrs. Monture laid information before A. P. McDougald, J. P., and the little scamps with their fathers appeared, and, of course, were all taxed two dollars fine and two dollars cost and given good advice by the J. P. A term in a boys' reformatory is possible if parents cannot govern their children better.

Gamey Getting Rich.

The member for Manitoulin, R. R. Gamey, has been putting in most of the fall in Cobalt, where he has succeeded in picking up some very valuable mining propositions, and has associated with himself some of the leading members of the Conservative executive of Toronto. One proposition which Mr. Gamey engineered is said to have netted him about \$5,000, with the expenditure of no more cash than that entailed by a couple of trips to Cobalt.

Chamberlain's Cough Remedy the Best Made.

"In my opinion Chamberlain's Cough Remedy is the best made for colds," says Mrs. Cora Walker of Porterville, California. There is no doubt of its being the best. No other will cure a cold so quickly. No other is so sure a preventative of pneumonia. No other is so easy and safe to take. These are good reasons why it should be preferred to any other. The fact is that few people are satisfied with any other after having once used the remedy. For sale by Jas. A. Scott, druggist.

Now Look Out For Watch Troubles

The cold weather is apt to harden the oil—that strains the mainspring and affects the motion.

It's the wisest thing you can do to have your watch examined at this time of the year. If it is in good order, we'll let it alone; if it needs repairing, we'll do it thoroughly at a moderate price.

Few watches are cleaned and oiled as they ought to be—once a year.

People usually wait until something breaks. The other way is the cheapest in the end and saves the watch.
