of the people?"

"I suppose the fault lies with the people largely. If they would kick when they see these things going wrong, as you have done, probably the work would be more satisfustorily done. Good day—"

"Hold on. There is one more thing I want to kick about. That is the manner some of the new line poles have been placed orms street and Dufferin avenue. Where is the superintendent of public works that is don't look after these matters?
